

## Environmental Permit

Environment Protection Act (CAP. 549)

Permit number  
**EP 006/09/F**

The Environment and Resources Authority (hereinafter the Authority; the Competent Authority or ERA) in exercise of its powers under the Environment Protection Act (CAP. 549) and Subsidiary Legislation 549.63, the Waste Regulations, as published by L.N. 184 of 2011 as amended, hereby authorises:

***Wasteserv Malta Ltd.***

Company registration number: **C 30560**

(hereinafter “the Operator” or “the Permit Holder”),  
Of / Whose Registered Office (or principal place of business) is at

***Wasteserv Malta Ltd.***

***Eko Centre  
Triq il-Latmija  
Marsaskala***

to carry out waste management activities related to a Civic Amenity Site at:

***Civic Amenity Site  
l/o Maghtab***

to the extent authorised by and subject to the conditions of this Permit.

This permit is valid for **two (2) years** from the original issue date. An application for renewal of this permit is to be submitted at least six weeks prior to expiry of this permit.

## Conditions

### 1 General

The Permitted Installation shall, subject to the conditions of this Permit, be managed, controlled and operated as described in the Application, or as otherwise previously agreed in writing by the Authority.

#### Status Log

Detail	Date
<i>Original Application</i>	08 February 2006
<i>Permit Issued</i>	29 November 2007
<i>Variation Issued</i>	30 May 2008
<i>Renewal Issued</i>	15 July 2009
<i>Variation Issued</i>	01 September 2011
<i>Variation Issued</i>	05 January 2012
<i>Variation &amp; Consolidation Issued</i>	07 May 2012
<i>Variation Issued</i>	05 February 2013
<i>Variation Issued</i>	06 May 2013
<i>Renewal Issued</i>	31 July 2013
<i>Variation Issued</i>	18 August 2015
<i>Permit determined by ERA Board Issued</i>	04 August 2017
<i>Renewal Issued</i>	06 September 2017

### 1.1 Permitted Activities

- 1.1.1 The Operator is authorised to carry out the activities and the associated activities specified in Table 1.1.1.

Activity	Description of specified activity	Limits of specified activity
Acceptance and Temporary storage of hazardous and non-hazardous waste originating from private households	Storage of wastes separately according to waste stream in designated areas for a period of up to (but not exceeding) 12 months	From receipt of waste to dispatch of separated waste streams to authorised facilities either locally or abroad.

### 1.2 Site

- 1.2.1 The activities authorised under condition 1.1.1 shall not extend beyond the area indicated by the Operator during the application process at Maghtab; at the facility shown on the Site Map in Schedule 2 to this Permit.

### 1.3 General Conditions

- 1.3.1 The conditions and obligations of this permit are without prejudice to any other regulation, code of practice, conditions or requirements requested by other Authorities or entities, including but not limited to, the Occupational Health and Safety Authority, Malta Transport and the Regulator for Energy and Water Services (REWS).

- 1.3.2 This permit is granted saving third party rights. The Permit Holder is not excused from obtaining any other permission required by law. The obligations and conditions deriving from this permit are without prejudice to any other regulations, codes of practice, conditions/requirements imposed by other Authorities, including the need to obtain any development permit.
- 1.3.3 In these conditions and their interpretation, all terms shall have the same meaning as that assigned to them in Subsidiary Legislation 549.63, the Waste Regulations, as published by Legal Notice 184 of 2011 as amended,, or any statutory provisions or regulations amending or replacing them.
- 1.3.4 The Permit Holder shall apply the precautionary principle to safeguard the environment whilst carrying out the permitted activities and should immediately refuse the entry of waste that is suspected to be in breach of the conditions of this permit.
- 1.3.5 The Permit Holder shall ensure that all waste management operations authorised in accordance with this Permit are carried out in an orderly manner and in such a way as to cause the least possible disturbance to the surroundings and the least possible nuisance to third parties.
- 1.3.6 The Permit Holder is to be legally responsible and accountable for managing the site in all its various aspects, thus ensuring that the waste management activity for which he/she has been granted a permit is carried out in accordance with the provisions of S.L. 549.63 as amended, and other related legislation, as well as all the conditions of this permit.
- 1.3.7 Any significant incident (including accidental release of liquid, solid or gaseous materials from the site that could reasonably be regarded as causing environmental damage, or as posing a threat of environmental damage; or any fire incidents), shall be reported within 24 hours to ERA and the Civil Protection Department. Such events should also be recorded in the site diary.
- 1.3.8 The site must be well secured to minimise the opportunity for unauthorised entry.
- 1.3.9 The company shall maintain a register of third party complaints. The register shall record the name and address of the complainant(s), the date, location, source and nature of the complaint and the corrective action undertaken, where such action proves necessary.
- 1.3.10 The Permitted Installation shall be managed, controlled, supervised and operated by staff who are aware of the importance of environmental protection and suitably trained on the requirements of this Permit, in particular on those permit conditions relevant to their duties. All staff shall be provided with adequate training and written operating instructions to enable them to effectively carry out their duties. Such training shall be recorded.
- 1.3.11 This Permit is not transferable unless by application to the Authority, whereby the permit will be transferable only after an official letter from the Authority is issued endorsing the permit transfer. Transfer of ownership will also necessitate the transfer of environmental obligations and liabilities.
- 1.3.12 The Authority shall carry out regular compliance checks and audits that vary in frequency according to the site's compliance with the permit conditions. Any such checks and audits carried out by the Authority are to be made at the Permit Holder's financial expense.
- 1.3.13 The Authority's representatives are empowered to inspect every part of the site and ask for any closed or locked areas to be opened. They are also entitled to be given any proof, documentation, plans, receipts or any other records which these Authority representatives may request.

- 1.3.14 The Authority reserves the right to add, amend, substitute or revoke any of the conditions of this permit after notifying the Permit Holder of its intention and after describing the changes to the Permit Holder. This without prejudice to any operational changes resulting through emergency orders issue by the Authority.
- 1.3.15 The Permit Holder is able to request the Authority to change or amend any of the conditions of this permit with which the Permit Holder is no longer in a position to achieve compliance by applying for a Variation Notice. The changes in the permit conditions are only affected once official documentation from the Authority notifies the Permit Holder that the Variation Notice is in affect. Until such a time, the permit holder retains the responsibility to achieve full compliance with these conditions.
- 1.3.16 All plant, equipment and technical means used in operating the Permitted Installation shall be maintained in good operating condition. The operator shall keep maintenance records.
- 1.3.17 The validity of this permit is until **06 September 2019**. The Permit Holder is able to renew the permit upon application with the Authority expressing his/her intention at least six (6) weeks prior to the expiry of the permit. The permit will be considered renewed once the official renewed permit is issued by the Authority.
- 1.3.18 The Financial Assurance for meeting the obligations under this Permit is contained in an Agreement made between the Ministry of Finance on behalf of the Permit Holder and the Authority dated 26 June 2009 (MF130/2002/1). The Authority reserves the right to take part or all of the financial guarantee if the Permit Holder fails to take the necessary action in cases of non-compliance with these permit conditions or in cases where environmental integrity is threatened. This bank guarantee is without prejudice to any environmental liabilities incurred by the operator through failure to adhere with permit conditions.
- 1.3.19 The permit is issued against a **Bank Guarantee of €7,350** which shall be renewed annually. This guarantee will have to be maintained throughout the lifetime of the permit. Following renewal and/or variations to this permit, the Authority may require amendments to the Bank Guarantee without any prejudice.
- 1.3.20 The Authority reserves the right to take part or all of the bank guarantee if the Permit Holder fails to take the necessary action in cases of non-compliance with these permit conditions or in cases where environmental integrity is threatened. This bank guarantee is without prejudice to any environmental liabilities incurred by the operator through failure to adhere with permit conditions. Should the Authority forfeit the Bank Guarantee either in part or in full, the operator shall ensure that this is replenished without undue delay.
- 1.3.21 In cases where the financial guarantee does not cover the expenses incurred by the Authority to undertake any remedial action failed to be undertaken by the Permit Holder, the Permit Holder is to financially reimburse the Authority of all the expenses incurred.
- 1.3.22 A copy of this permit should be available at all times on site, including any Variation Notices or amendments to it.
- 1.3.23 The Authority may suspend or revoke this environmental permit or part of this environmental permit where significant mismanagement of the site is observed or any of the permit conditions are not respected after a written warning is given by the Authority or in any eventuality that gives the Authority enough reason to suspend or revoke this permit.

- 1.3.24 The operator may apply with the Authority for the release of the Bank Guarantee, which shall be released subject to the full compliance of the permit conditions, as confirmed by the Authority.
- 1.3.25 The Authority reserves the right to attach a fee to this permit.
- 1.3.26 The Authority shall reserve the right to request monitoring and/or review of operational practices and carry out audits on the installation, as deemed necessary. Any required monitoring and audits shall be carried out at the expense of the Permit Holder.
- 1.3.27 ERA reserves the right to undertake any remedial action failed to be undertaken by the operator at the operator's expense.

## 1.4 Operational Changes

- 1.4.1 The operator shall seek the Authority's written agreement to any operational changes which could cause impact on the environment (including introduction of new waste streams, processes or equipment) by sending to the Authority: written details of the proposed change, including an assessment of its possible effects (including changes in emission and waste production) on risks to the environment from the Permitted Facility; any relevant supporting documentation or drawings, and the proposed implementation date.
- 1.4.2 Any such change shall not be implemented until agreed in writing by the Authority. As from the agreed implementation date, the operator shall operate the Permitted Installation according to that change, and relevant positions in the Application shall be deemed to be amended.

## 1.5 Improvement Programme

- 1.5.1 The Operator shall complete the improvements specified in Table 1.5.1 by the date specified in that table, and shall send written notification of the date of completion of each requirement to the Authority within 10 working days of the completion of each such requirement.

<b>Reference</b>	<b>Requirement</b>	<b>Deadline</b>
1	Operator is to obtain a Sewer Discharge Permit by the Water Services Corporation.	Within three (3) months of issue of the permit.
2	The WEEE storage shall be reduced to ensure that this does not extend beyond the area designated for such use.	Within twelve (12) months of issue of permit
3	All hazardous waste shall be stored in appropriate containment and sheltered from the elements	Within twelve (12) months of issue of permit
4	The site shall be equipped with a weighbridge facility	Within twelve (12) months of issue of permit

## **2. Site Infrastructure and Operations**

### **2.1 Site Infrastructure**

- 2.1.1 During non-operating hours the site should be firmly closed and totally inaccessible to third parties, both by vehicle and on foot.
- 2.1.2 A quarantine area is to be designated within the site boundary to temporarily hold unpermitted waste that may enter the site (refer to Section 3). A non leaking skip or similar contained structure can be utilised for the temporary storage of unpermitted waste.
- 2.1.3 The site should be clearly identified by a site identification board, which should be replaced as soon as it is damaged or the information is no longer readable from a distance. The site identification board should be located at the site entrance and should contain the following information:
- a. The company name and address
  - b. Permit Holder's name
  - c. List of authorised activities on site
  - d. TCP's name and 24 hour emergency mobile number
  - e. Permit Number (making it clear this site is permitted by the Authority)
  - f. Opening hours of the site
- 2.1.4 No waste shall be deposited, stored, treated or otherwise handled in any area of the site that is not impermeable.

### **2.2 Permitted Operations on Site**

- 2.2.1 Only waste streams as set out in the European Waste Catalogue codes in Schedule 1 can be accepted and processed on site.
- 2.2.2 The total quantities of waste accepted at the site per year shall not exceed any value the Site can handle during the year. The total amount of waste that can be stored at any given time cannot exceed the capacity of the permitted facility as indicated by the operator during the application process. A change in either operational or storage capacity would require a permit variation.
- 2.2.3 The Permit Holder shall ensure to issue a certificate / receipt for every consignment of wastes accepted on Site indicating the date and time of the consignment and the weight of the waste received. Each certificate / receipt should indicate the site name and permit number, as well as bearing a unique sequential number. Records of all waste consignments leaving the site shall also be officially recorded.
- 2.2.4 All wastes leaving the site after storage and/or processing must only be sent to facilities licensed to accept the individual waste stream, either locally or abroad.
- 2.2.5 Handling of the hazardous waste shall only be done in the presence of the Technically Competent Person on site, who shall ensure that all the necessary precautions and health and safety measures are being taken whilst handling the hazardous waste.
- 2.2.6 Liquid wastes should be kept in bunded areas to prevent contamination in case of accidental spillages. Spill kits or equivalent should be kept on site in case of such spills occurring within the site during transport or handling.
- 2.2.7 The quantities of wastes on site should not exceed their designated areas at any given time. When an area or container specified for a specific waste stream is full, this area or container should be emptied prior to any further acceptance of waste of that type.

- 2.2.8 Wastes which could be compromised by exposure to the elements should be kept in covered areas or containers to avoid further unnecessary damage.
- 2.2.9 In the case of animal tissue waste, only wastes arising from licensed butcher shops can be accepted on site. Such waste is to be stored in the designated skips kept within refrigerated containers kept at temperatures below freezing point to ensure no thawing of waste. Skip capacity may not exceed 1 cubic meter and all animal tissue waste must be properly sealed in the designated plastic bags prior to arrival on site to prevent loss of fluids. Waste in sealed bags should also be transported to site in rigid leak-proof containers to prevent spills in transport. Any spillages must be collected immediately upon detection.
- 2.2.10 Animal tissue waste must be removed from site immediately upon reaching skip capacity, and transported directly to the Thermal Treatment Facility, using the consignment note permit procedure. Storage of such waste in the freezer compartment on site must not exceed 5 days.
- 2.2.11 Any asbestos entering the site shall be placed immediately within the designated container for this waste. The container for temporary storage of asbestos must be clearly identifiable with proper signage and the doors of the container should be kept closed when no wastes are being deposited inside. Storage periods for asbestos on site should be kept to a minimum.
- 2.2.12 Used sharps shall be kept in appropriate containers designed for this purpose, and shall be properly labelled.

## **2.3 Hours of Operation**

- 2.3.1 Without prejudice to any code of practice or any other regulations or agreements between or from other Authorities or governmental bodies, the waste management operations authorised by this Permit shall only be carried out within the times specified below:

- Monday to Sunday (including public holidays): 07:30 – 17:30

## **3. Operating Conditions**

### **3.1 Emissions**

#### **3.1.1 Emissions to Air**

3.1.1.1 All emissions to air from the specified waste management operations listed in table 1.1.1 shall be free from visible concentrations of dusts, fibres or particulates that are likely to cause pollution of the environment or harm to human health or serious detriment to the amenity of the locality outside the Site, as perceived by an authorised officer of the Authority.

3.1.1.2 In the event of a local environmental impact from emissions to air, the operator must, at the written request of ERA and within 10 working days, identify the specific cause of the impact and examine means for its elimination.

#### **3.1.2 Effluent Discharges**

3.1.2.1 No discharges to surface water or groundwater shall take place from the Permitted Installation.

- 3.1.2.2 No discharges to the foul sewer (other than domestic sewage or equivalent) shall take place from the Permitted installation.
- 3.1.2.3 The Operator shall undertake all necessary measures and precautions to prevent spillage of raw materials, intermediates, products, waste and any other materials.
- 3.1.2.4 All process and storage areas must be appropriately contained. Any accidental release of substances shall be duly treated prior to discharge into the sewers, or disposed/recovered to the satisfaction of the Authority.

### **3.1.3 Emissions to Land**

- 3.1.3.1 No emission from the Permitted Installation shall be made to land.

### **3.1.4 Odour**

- 3.1.4.1 Emissions from the activities shall be free from odour at levels likely to cause pollution and/or impact outside the site and at sensitive receptors, as perceived by the Authority.
- 3.1.4.2 The Operator shall prevent or where that is not practicable, reduce odorous emissions from the Permitted Installation, in particular by:
- limiting the use of odorous materials;
  - restricting odorous activities;
  - controlling the storage conditions of odorous materials;
  - controlling processing parameters to minimise the generation of odour;
  - optimising the performance of abatement systems;
  - timely monitoring, inspection and maintenance;
  - employing, if required by the Authority, an approved odour management plan.

### **3.1.5 Waste**

- 3.1.5.1 The Permit Holder shall apply the precautionary principle to safeguard the environment whilst carrying out the permitted activities and should immediately refuse the entry of waste that is suspected to be in breach of the conditions of this permit.
- 3.1.5.2 The Permit Holder shall ensure that all waste management operations authorised in accordance with this Permit are carried out in an orderly manner and in such a way as to cause the least possible disturbance to the surroundings and the least possible nuisance to third parties.
- 3.1.5.3 All wastes shall be stored within a designated and controlled storage area(s) prior to ultimate disposal. Any unpermitted wastes that may inadvertently enter the site must be stored in a clearly defined and contained quarantine area and not be mixed with other wastes on site.
- 3.1.5.4 Any hazardous or liquid wastes which may enter the sites shall be stored in a labelled closed container(s) within a designated and controlled storage area(s) prior to ultimate disposal. Wastes of different natures shall not be mixed in the same container.
- 3.1.5.5 Any liquid waste must be kept in a bunded area of appropriate size. Alternatively, such waste may be kept on drip trays of an adequate size. Emptying of bunds including spill trays shall be carried out as often as necessary and the collected rainwater must be disposed of in an appropriate manner due to potential contamination.

- 3.1.5.6 The Permit Holder shall maintain records of the weight of each waste consignment received and /or removed from the site, and such data is to be collected using a properly calibrated scale. Operator is to submit details of the scale used, together with its location and calibration details. Records of waste weighed prior to loading onto the vehicle from the point of collection may be accepted in lieu of on site weighing
- 3.1.5.7 No storage of waste is permitted for a period exceeding 12 months.
- 3.1.5.8 All wastes leaving the site after storage and/or processing must only be sent to facilities licensed to accept the individual waste stream, either locally or abroad.
- 3.1.5.9 The operator is to prevent litter or other wastes escaping from the site boundaries, particularly during loading/unloading. Any such escape of waste shall be collected immediately upon detection.
- 3.1.5.10 Only registered waste carriers as per activity 38 of schedule 1 of Subsidiary Legislation 549.45 in the Waste Management (Activity Registration) Regulations are allowed to transport waste from this site to other authorised disposal/recovery facilities.
- 3.1.5.11 Transboundary movement of waste shall be carried out in accordance with the following regulations, as amended from time to time:
- a) Regulation (EC) N° 1013/2006 of the European Parliament and of the Council of 14 June 2006 on shipments of waste
  - b) Commission Regulation (EC) N° 1418/2007 of 29 November 2007 concerning the export for recovery of certain waste listed in Annex III or IIIA to Regulation (EC) N° 1013/2006 of the European Parliament and of the Council to certain countries to which the OECD Decision on the control of transboundary movements of waste does not apply; and
  - c) any other applicable legislation.
- 3.1.5.12 On-site disposal of wastes by any means including burning, disposal to drain or surface water, burying or deposition on land is prohibited, unless specifically approved through a Variation of this Permit.
- 3.1.5.13 All hazardous waste transferred off the site from shall be accompanied by a valid hazardous waste Consignment Permit issued by ERA. Each consignment under the consignment permit should be accompanied by a Consignment Note.

## **4. Site Management**

### **4.1 Staff obligations and Responsibilities**

- 4.1.1 All employees authorised by the Permit Holder to undertake waste management activities on his/her behalf, shall be fully conversant with the obligations of this permit and shall be individually aware of their responsibilities and liabilities in observing the conditions of this permit.
- 4.1.2 One member of the staff should be nominated as the Technically Competent Person (TCP) of the site, whereby this person is to physically represent the Operator during the times when the Operator will not be available.
- 4.1.3 The TCP is responsible for the implementation of all the obligations stipulated in this permit, must supervise the rest of the staff on site and is completely responsible to

ascertain that all permit conditions are being adhered to and that unauthorised waste does not enter the site.

- 4.1.4 The TCP is to be present at all times on site and in her/his absence another member of staff is to substitute him/her temporarily. In the event that a TCP terminates her/his employment, another person shall be appointed as a TCP immediately and the Authority shall be informed of this change.
- 4.1.5 In the event where operations cease temporarily, the TCP or Operator are obliged to notify the Authority within two (2) days and are also to inform the Authority with regards to when the works are intended to resume.
- 4.1.6 All the staff on site should be fully aware of the procedures to be taken to contain any environmental hazard which may arise related to the activities being carried out on site.
- 4.1.7 The Authority shall be informed within 24 hours in the event of an environmental hazard or major incidents.

## **4.2 Control of Mud, Debris & Emissions**

- 4.2.1 At all times during the year the Permit Holder and/or TCP are to ascertain that the roads leading to the facility are clean and free of mud or large debris. In the event that mud or large debris is observed on the road the Permit Holder and/or TCP is to take remedial action and ascertain that the roads are immediately cleaned.

## **4.3 Accident Prevention and Control**

- 4.3.1 An Emergency Response Plan shall be maintained containing details of the location, nature and quantity of chemicals, oils and fuels stored, any special hazards, a drawing showing location of drains and the emergency phone numbers of the operator and relevant authorities. It shall also include actions to be taken in the case of incidents which could affect the environment, such as fires and chemical/fuel spills. The emergency plan shall indicate that accidental releases of chemicals and fires caused by chemicals are to be managed as specified in the respective MSDS sheets.
- 4.3.2 The emergency response plan shall be updated whenever necessary and the updated version sent to ERA and the Civil Protection Department.
- 4.3.3 In the case of an accident (including fire, chemical spills, etc.), the Operator shall follow the Emergency Response Plan referred to in Condition 4.3.1 and, in the case that such accident could reasonable be regarded as causing environmental damage or as posing a threat of environmental damage, the Operator shall notify the Authority within 24 hours.

## **4.4 Site Records & Archive**

- 4.4.1 A site diary should be kept on site in which the following information shall be recorded on a daily basis:
  - (a) Total amount of waste in kilos removed from site for disposal or further treatment
  - (b) Any incidents that took place on site such as mechanical faults in the machinery or equipment used on site, any spills, fires, etc and the remedial action taken
  - (c) Names of visitors
  - (d) Any other incidents that the Permit Holder deems important to record in the Site Diary.

Each event recorded within the site diary must be completed within 24 hours of the event.

- 4.4.2 The Operator shall ensure that all records required to be made by this Permit and any other records made by it in relation to the operation of the Permitted Installation shall:
- (a) be made available for inspection by the Authority at any reasonable time;
  - (b) be supplied to the Authority on demand and without charge and in the format requested;
  - (c) be legible;
  - (d) be made as soon as reasonably practicable;
  - (e) indicate any amendments which have been made and shall include the original record wherever possible; and
  - (f) be retained at the Permitted Installation, or other location agreed by the Authority in writing, for a minimum period of 3 years from the date when the records were made, unless otherwise agreed in writing.

## **4.5 Reporting**

- 4.5.1 The Operator shall submit to the Authority an Annual Environmental Report (AER) of the previous year by not later than end of March of each year, providing the information listed in the ERA website and in the format specified therein (<http://era.org.mt/en/Pages/Waste-Management-Reporting-Templates.aspx>).
- 4.5.2 A summary record of the waste quantities accepted and removed from the Site shall be made annually and shall be submitted to the Authority as part of the AER. The summary record shall be in the format specified therein and shall be submitted within three months of the end of the reporting year.

## **4.6 Site Closure and Decommissioning**

- 4.6.1 In the event of cessation of business activity on the site, all wastes (including machinery, tanks, equipment) and hazardous materials must be removed from the site such that any pollution risk is avoided and the site is returned to a satisfactory state. The Operator shall notify the Authority at least three months prior to taking action, and shall submit a decommissioning plan to the Authority for approval.
- 4.6.2 When deemed necessary, the authority may require the permit holder to take such additional measures as it considers necessary with respect to after care obligations in relation, but not limited to the remedial action, rehabilitation, and monitoring of the waste management or waste production site.
- 4.6.3 A finalised version of the Decommissioning Plan shall be submitted to the Authority for approval not later than 10 days after the Authority is notified of the intention to decommission the site.
- 4.6.4 The approved Decommissioning Plan shall be implemented within 12 months of final cessation or decommissioning of the Permitted activities or part thereof or according to a timeframe as may be agreed with the Authority.

**Schedule 1****Complete List of Permitted Waste on Site**

---

02 02 02	Animal tissue waste
08 03 17*	Waste printing toner containing dangerous substances
08 03 18	Waste printing toner other than those mentioned in 08 03 17
13 02 06*	Synthetic engine, gear and lubricating oils
13 02 08*	Other engine, gear and lubricating oils
15 01 01	Paper and cardboard packaging
15 01 02	Plastic packaging
15 01 03	Wooden packaging
15 01 04	Metallic packaging
15 01 05	Composite packaging
15 01 06	Mixed packaging
15 01 07	Glass packaging
15 01 10*	Packaging containing residues of or contaminated by dangerous substances
15 02 02*	Absorbents, filter materials (including oil filters not otherwise specified), wiping cloths, protective clothing contaminated by dangerous substances
15 02 03	Absorbents, filter materials, wiping cloths, and protective clothing other than those mentioned in 15 02 02
16 01 03	End-of-life tyres
16 01 07*	Oil filters
16 01 19	Plastic (Vehicle bumpers)
16 02 11*	Discarded equipment containing chlorofluorocarbons, HCFC, HFC
16 02 13*	Discarded equipment containing hazardous components other than those mentioned in 16 02 09 to 16 02 12
16 02 14	Discarded equipment other than those mentioned in 16 02 09 to 16 02 13
16 02 15*	Hazardous components removed from discarded equipment
16 02 16	Components removed from discarded equipment other than those mentioned in 16 02 15
16 03 05*	Organic wastes containing dangerous substances
16 06 01*	Lead batteries
16 06 02*	Ni-Cd batteries
16 06 03*	Mercury-containing batteries
16 06 04	Alkaline batteries (except 16 06 03)
16 06 05	Other batteries and accumulators
17 01 01	Concrete
17 01 02	Bricks
17 01 03	Tiles and ceramics
17 01 06*	Mixtures of, or separate fractions of concrete, bricks, tiles and ceramics containing dangerous substances
17 01 07	Mixture of concrete, bricks, tiles and ceramics other than those mentioned in 17 01 06
17 06 05*	Construction materials containing asbestos
17 09 04	Mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03
18 01 01	Sharps
18 01 03*	Waste whose collection and disposal is subject to special requirements in order to prevent infection <b>(used sharps only)</b>

20 01 01	Paper and cardboard
20 01 02	Glass
20 01 10	Clothes
20 01 11	Textiles
20 01 13*	Solvents
20 01 14*	Acids
20 01 15*	Alkalines
20 01 17*	Photochemicals
20 01 19*	Pesticides
20 01 21*	Fluorescent tubes and other mercury-containing waste
20 01 23*	Discarded equipment containing chlorofluorocarbons
20 01 25	Edible oil and fat
20 01 26*	Oil and fat other than those mentioned in 20 01 25
20 01 27*	Paint, inks, adhesives and resins containing dangerous substances
20 01 28	Paint, inks, adhesives and resins other than those mentioned in 20 01 27
20 01 29*	Detergents containing dangerous substances
20 01 30	Detergents other than those mentioned in 20 01 29
20 01 31*	Cytotoxic and cytostatic medicines
20 01 32	Medicines other than those mentioned in 20 01 31
20 01 33*	Batteries and accumulators included in 16 06 01, 16 06 02 or 16 06 03 and unsorted batteries and accumulators containing these batteries
20 01 34	Batteries and accumulators other than those mentioned in 20 01 33
20 01 35*	Discarded electrical and electronic equipment other than those mentioned in 20 01 21 and 20 01 23 containing hazardous components
20 01 36	Discarded electrical and electronic equipment other than those mentioned in 20 01 21 and 20 01 35
