Integrated Pollution Prevention and Control Regulations 2002

Introduction to Part A**When to use this form**

Use this form if you are sending an application to the MEPA under the Integrated Pollution Prevention and Control Regulations 2002 ('the IPPC Regulations').

The form is to be used for applications made in respect of both 'installations' and 'mobile plant' (and in the rest of the form, the term 'installation' also covers 'mobile plant' where appropriate).

Before you start to fill in this form

There may be two or more operators in a single installation. Each operator will need a permit, each obtained by a separate application. Your applications will principally relate to the part of the installation under your control, but will also need to include some information on the rest of the installation. This will help us to assess the operation of the whole installation. The term "installation", when used in this application form (and elsewhere) may refer to either the whole or part of the installation, depending on the nature of the information we are seeking to obtain.

Which parts of the form to fill in

The form is in five parts but we usually only send you the parts you need to fill in. Everyone has to fill in Part A, and prepare and sign a covering letter at the end of their application.

The other parts you need to fill in depends on the type of application you are making:

- To apply for a new permit – fill in Parts A and B;
- To vary an existing permit – fill in Parts A and C;
- To transfer all or part of an existing permit to someone else – fill in Parts A and D. This should be a joint application by the transferor and the transferee;
- To surrender all or part of an existing permit – fill in Parts A and E.

Other documents we need to see

There are a number of other documents you will need to send us with your application. Each time a request for documents is made in the application form you will need to record a document reference number for the document or documents that you are submitting in the box provided on the form for this purpose.

Please also mark the document(s) clearly with this reference number and either the application reference number if you know it or your existing permit number. If you do not have either of these, please use the name of the installation.

If you know your Application Reference Number, please enter it into the box below:

Using continuation sheets

In the case of questions required to be answered on the application form itself, please use a continuation sheet if you need extra space; but please indicate clearly on the form that you have done so by stating a document reference number for that continuation sheet. Please also mark the continuation sheet itself clearly with the information referred to above.

If you need help and advice

We have made the application form as straightforward as possible, but please get in touch with us if you need any advice on how to set out the information we need.

Please get in touch with us on 2290 3500.

A1 About your application

A1.1 What type of application are you making?

- ☒ new permit
- ☐ variation of an existing permit
- ☐ transfer of an existing permit
- ☐ surrender of an existing permit

A1.2 Name of the installation

AMINO CHEMICALS LTD

Please tell us if this name is:

- ☒ already agreed with the MEPA; or
- ☐ one that you are proposing.

A1.3 Please give the address of the site of the installation, and a map or plan showing the site of the installation and the location of the installation on the site

Street Address	MRA 050
	Industrial Estate
Locality	MARSA

- ☐ • A variation – fill in Part C;
- ☐ • A transfer – fill in Part D;
- ☐ • A surrender – fill in Part E.

Form IPPC Part B – application for a permit

For MEPA use only

Application Reference

Use this part of the form if you are applying for a new permit
Please read carefully Annex I attached with this application

B1 About the installation

Please fill in the installation table below with details of all the activities and operators at the whole installation, even if you are applying for a permit in respect of only part of the installation.

In column 2 **Operator** write the name of the operator for each activity (if you are the operator yourself, write "Applicant").

In column 1 **Activities** in "the stationary technical unit" please identify all activities listed in Schedule 1 to the IPPC Regulations that are proposed to be carried out in the "stationary technical unit" of the installation.

For **Directly associated activities** please identify any directly associated activities proposed to be carried out on the same site which:

- have a technical connection with the activities in the stationary technical unit, and
- could have an effect on pollution.

B1.2 Why is the application being made?

- ☒ the installation is new,
- ☐ it is an existing installation and you are applying in accordance with the timetable in the IPPC Regulations,
- ☐ it is an existing installation and you have the agreement of the MEPA to make this application now. Please attach proof of this agreement, such as a letter from the MEPA.

Document reference number for proof

- ☐ it is an existing installation for which a 'substantial change' is proposed,
- ☐ it is for a mobile plant being moved to a new location.

B1.3 Site maps and reports

Please provide:

- a site report describing the condition of the site of that part of the installation in respect of which you are applying for a permit, and, in particular, identifying any substance in, on or under the land which may constitute a pollution risk.

Document reference number for the report

101, 102 / AMINO

- suitable maps or plans showing the location of the site of the installation, the location and nature of the various activities on that site and the area of the site covered by the site report

Document reference number for the maps or plans

B2 Your proposed techniques

Please provide written information about the aspects of your installation listed below. We need this information, and that which you give in response to B3 and B4, to determine whether you will operate the installation in a way which meets all the environmental requirements of the IPPC Regulations.

In each case you should:

- address all of the issues set out in the section of the relevant technical guidance identified in brackets,
- justify your proposals against any indicative requirements contained in the guidance and,
- provide any other information about the installation which you think is relevant to that issue.

Information required:

B2 Your proposed techniques *cont.*

B2.1 Provide details of your proposed management techniques.

Document reference number: 003 / AMINO

B2.2 Identify the raw and auxiliary materials, other substances and water that you propose to use.

Document reference number: 103 / AMINO

B2.3 Describe the proposed installation activities and the proposed techniques and measures to prevent and reduce waste arisings and emissions of substances and heat (including during periods of start-up or shut-down, momentary stoppage, leak or malfunction).

Document reference number: 007 / AMINO + 106 / AMINO

B2.4 Characterise and quantify each waste stream from the installation and describe the proposed measures for waste management, storage and handling.

Document reference number: 008 / AMINO

B2.4.1 Identify if there may be a discharge of any List I or List II substance and if any are identified, explain how the requirements of the Groundwater Regulations (LN203 of 2002) have been addressed.

Document reference number: 009 / AMINO

B2.5 Could the installation involve the release of any Schedule A or Schedule B substance into the sewers and if any are identified explain how the requirements of LN139 of 2002 have been addressed

No ☒ Yes ☐

010A / AMINO

B2.5.1 Identify if there may be a direct discharge of any List I or List II substance to coastal (up to 1 nautical mile from the coast line) or territorial waters; and if any are identified, explain how the requirements of the Discharge of Dangerous Substances Regulations (LN212 of 2001) have been addressed?

No ☒ Yes ☐

010B / AMINO

B2.6 Describe how each waste stream is proposed to be recovered or disposed of and, if you propose any disposal, explain why recovery is technically and economically impossible and describe the measures planned to avoid or reduce any impact on the environment.

105 / AMINO

B2.7.1 Provide a breakdown of the proposed energy consumption and generation by source and end-use

Document reference number: 107/AMINO

B2.7.2 Describe the proposed basic measures for improvement of energy efficiency

Document reference number: 107/AMINO

B2.8 Describe the documented system proposed to be used to identify, assess and minimise the environmental risks and hazards of accidents and their consequences.

Document reference number: 117/AMINO

B2.9 Describe the main sources of noise and vibration (including infrequent sources); the nearest noise sensitive locations and relevant environmental noise measurement surveys which have been undertaken; and the proposed techniques and measures for control of noise.

Document reference number: 108/AMINO

B2.10 Describe the proposed measures for monitoring emissions including any environmental monitoring, and the frequency, measurement methodology and evaluation procedure proposed.

Document reference number: 016/AMINO + 119/AMINO

B2.11 Describe the proposed measures upon definitive cessation of activities, to avoid any pollution risk and return the site of the installation to a satisfactory state (including relevant measures for the design and construction of the installation).

Document reference number: 109/AMINO 017/AMINO

B2.12 Where you are not the only operator of the installation, describe the proposed techniques and measures (including those to be undertaken jointly by yourself and other operators) for ensuring satisfactory operation of the whole installation.

Document reference number: N/A

B3 Your proposed emissions

Please provide written information about the emissions which will result from the techniques you described in response to the questions in section B2.

You should:

- provide any other information about the installation which you think is relevant to that issue...

Document reference number:

Information required:

B3.1 Describe the nature, quantities and sources of foreseeable emissions into each environmental medium.

Document reference number: 011/AMINO

B4 Impact on the environment

Please provide written information about the impact your emissions may have on the environment.

You should:

- address all of the issues set out in the section;
- justify your proposals;
- provide any other information about the installation which you think is relevant to that issue.

Information required:

B4.1 Provide an assessment of the potential significant environmental effects (including transboundary effects) of the foreseeable emissions.

Document reference number: 114/AMINO

B4.2 Provide an assessment of whether the installation is likely to have a significant effect on a another site in Malta and, if it is, provide an assessment of the implications of the installation for that site.

Document reference number: 115/AMINO

B5 Environmental statements

B5.1 Has the development of the installation (or any subsequent change or extension of the development) required an environmental statement under LN204/2001 on the assessment of the effects of certain public and private projects on the environment?

No ☒

Yes ☐ please supply a copy of the environmental statement submitted and details of any decision made.
