

C008/ E2014

C2.5.1: Energy consumption

The annual energy consumption is estimated to increase.

Estimated calculation:

- Year 2013 energy consumption: 2090 MWh/year.
- Ventilation system consumption: 48 MWh/year
- Therefore, estimated annual consumption: 2138 MWh/year.

The main energy-consuming equipment is heat coils inside AHU.
