

IPCC : The Edible oil Refining Co. Ltd.

B003
Site Map

Since this is not a new installation but only used for a new process and has been in existence since 1954, we are enclosing an e-mail from Malta Industrial Parks Ltd. where they are informing us that they held no records at that time.

To our knowledge there are no substances in, on or under the land which may constitute a pollution risk.

MR Parnis England

Importance: High

Good morning MR Parnis England

Have had a meeting with the architect in charge of the Marsa I.E. and who was with your request and I regret to inform you that we do not have any records on the status of the land prior to the Edible Oil Refining Co.

Sorry for not being able to help.

Regards,

Josette Zammit
