Renewal and Variation of IP0004/12/A

Dr. Joe A Doublet PhD (Wales)

Applicant

Damian Whitehead

Architect

Perit Joe Grech B.E.& A. (Hons), A.& C.E.

May 2017

The proposed variation concerns the removal or rather the non-installation of a fuel pump and associated ancillary facilities such as pipes and underground storage tank and the increase in storage area.

In terms of IPPC permit the activity listed in Table 1.1.1 of the permit under the heading: *Fuel Storage and dispensing* is to be removed from the renewed permit, reason being that applicant never installed such a facility and doesn't intend to store one now or in the future. This was also reflected in communication dated 11th December 2013 addressed to Ms Pauline Agius Farrugia.
