Perit Joe Grech B.E.& A. (Hons), A.& C.E.

May 2017

There isn't going to be any major change in activities relating to waste management on site. The only changes are that the fuel dispenser and underground storage tanks and associated facilities were never installed on site and hence are being removed from the permit.

Otherwise, the storage area for scrap mounds will be increased to a capacity of between 5 to 6000 tonnes.
