

WASTESERV MALTA LTD

RISK ASSESSMENT

ASSESSMENT CARRIED OUT BY: Marco Putzulu Caruana		DESIGNATION: Health & Safety Officer			
SITE: Ta' Zwejra					
ACTIVITY: Unloading of vehicles			RISK ASSESSMENTS		
HAZARDS IDENTIFIED:			HIGH	MED	LOW
Being struck by a manoeuvring vehicle.				x	
Falling objects.					x
Site plant operations.				x	
PERSONS AT RISK:					
EMPLOYEES	x	CONTRACTORS	x	LANDFILL STAFF	x
GENERAL PUBLIC		n.a.		OTHERS	n.a.
ACTIONS TAKEN TO MINIMISE HAZARDS:					
High visibility clothing to be worn by all involved. Site officer to show where to unload. Wherever possible, minimise human involvement by using mechanical handling methods. Follow safe system for release of all load restraints and sequence of unloading. Inspect for load shift prior to release. Minimise number of people in off loading areas. Ensure off loading area is as level as possible. If unloading area is sloping, extra care must be taken with whole sequence of events.					
MONITORING REQUIRED:					
Keep up to date records of all Personal Protective Equipment issued. Ensure safety at all times. Provision of Site officer at all times.					
INFORMATION TO BE PROVIDED TO EMPLOYEES:					
Any relevant guidance, if any, available from Health & Safety. Any relevant training courses/workshops.
