C3.1.2

Waste recycling facility and baling plant

Hal Far, l/o Birżebbuġa

Variation of IP0004/12/A

Dr. Joe A Doublet PhD (Wales)

Applicant

Damian Whitehead

Architect

Perit Joe Grech B.E.& A. (Hons), A.& C.E.

November 2020

There are no particular changes from the previous applications since the processing of cables or wires will be taking place in the designated area which is the designated Brass/ Aluminium/ Copper store. Once processed the metal is baled and stored either in 45gallon drums or in jumbo bags to be exported once. Capacity depends much on pricing and availability of material to fill a large container.

All cables and wires together with processed material is stored inside store which is kept locked at night.
