Date: 12 March 2018  
Our Ref: PA/09807/17  
Perit Ref: 17010

Dear Sir/Madam,

Application Number: PA/09807/17  
Location: Wasteserv Malta, EKO Centre, Triq Il-Latmija, Marsascala,  
Malta  
Proposal: Construcion of Chemical Room over existing garage

### Post Decision Requirements

The above-mentioned application for development permission was approved on 12 March 2018. You are requested to submit

- The executable version of this development permission together with the approved plans and commencement notice shall not be issued until such time that the applicant submits a written acknowledgment from the Environment and Resources Authority (ERA) confirming that an application for a variation of the IPPC permit has been submitted and validated by PA/09807/17 Document - (64a).  
The operation proposed by this development shall not commence until such time that the update to the IPPC permit is issued by ERA.

In order for the Planning Authority to issue an Executable Development Permission, which would enable works on site to commence, the outstanding matters described above require to be **settled within 6 months** from the date of this letter.

The Non-Executable permit shall be valid from the publication date by the Department of Information (DOI) **and does not entitle you to commence any works on site.**

Once any outstanding matters are settled, the Executable Development Permission, together with the approved plans and documents, shall be issued and shall be valid as per the Non-Executable permission.

**If any matter shall remain unsettled after six (6) months from the date of this letter, the Non-Executable Permit shall be withdrawn and the application shall be automatically dismissed.**

Yours faithfully,

Phyllis Curmi  
Planning Commission Secretariat
