Reference №	Legislation	Title	Regulation	Observation / Non-Conformance
1	Cap.549	Environment Protection Act		
2	S.L. 549.04	<u>Environment Protection (Preventive and Remedial Measures) Regulations</u>		
3	S.L. 549.45	<u>Waste Management (Activity Registration) Regulations</u>	Article 37: Waste Carrier Registration (as per Schedule 2:38)	
			Article 38: Waste Broker Registration	
			Article 41(5.p): Dead or fallen animals and slaughterhouse wastes are to be transported to the public abattoir incinerator	
4	S.L. 549.63	<u>Waste Regulations</u>	Regulation 7(1): "...Commission Decision 2000/532/EC establishing a list of waste shall apply. The list of waste shall be binding as regards determination of the waste which is to be considered as hazardous..."	
			Regulation 12 (2): It shall be the duty of any original waste producer or other waste holder to: (c) ensure that such waste is managed by a person who is in possession of a permit.	
			Regulation 12 (5): No person shall deposit any waste except in a waste management facility which is authorised to receive that waste by virtue of a permit.	
			Regulation 12 (7): The costs of waste management shall be borne by the original waste producer or by the current or previous waste holders, depending on who has the duty of care for the waste as per provisions of this regulation.	
			Regulation 14 (10): Waste consignment notes shall be kept for a minimum of three years and made available on request to the competent authority.	
			Regulation 19 (3): Permits shall be valid for such a time as the Competent Authority specifies, and an application for renewal by the permit holder shall be decided upon by the Competent Authority in accordance with regulation 21.	
5	S.L. 549.55	<u>Certain Fluorinated Greenhouse Gases Regulations</u>	Regulation 20 (1): Any person who collects or transports waste on a professional basis, dealers, brokers and waste treatment operators shall possess the minimum qualifications as defined by the Competent Authority. These minimum qualification requirements will take the form of a course with a duration and curriculum approved by the Competent Authority. The Competent Authority shall only accept certification by recognised training agencies institutions.	
			Regulation 4: All personnel involved shall be registered with the competent authority under such conditions as may be determined by the authority. Regulation 7 (1): Existing fixed equipment with more than three kilograms of fluorinated greenhouse gases shall be registered with the competent authority under such conditions as may be determined by the authority within one year from the date of publication of these regulations. (3) Any person owning fixed equipment with more than three kilograms of fluorinated greenhouse gases shall: (a) have this equipment checked for leakages as stipulated by the EC Regulation; and (b) keep a log of all checks in a duly filled out logbook.	
6	S.L. 549.89	<u>Waste Management (Electrical and Electronic Equipment) Regulations</u>	Article 4: WEEE collected through systems funded by Local Councils or by any other local agency, shall be deposited at facilities operated by a local agency designated by the Minister	

			Reference to Waste Regulations: WEEE waste was delivered using Consignment Permit / Note.	
7	S.L. 549.54	Waste Management (Waste Batteries and Accumulators) Regulations	<p>Articles 5 & 11: Battery waste is sent to a permitted facility.</p> <p>Waste Directive: Battery waste was delivered using a Consignment Permit / Note.</p> <p>Schedule 7: Any person disposing of waste batteries and accumulators in the form of unsorted municipal waste may be fined €100 per piece of batteries and accumulators disposed.</p>	
8	S.L. 549.65	Waste Management (Shipments of Waste) Regulations	Schedule (Regulation 5): application fees charged by The Competent Authority	
9	S.L. 545.08	Sewage Discharge Control Regulations	<p>Article 10(1) Every person who discharges any effluent into the public sewerage system shall give to the Chief Executive all reasonable facilities and all such information as may be reasonably required by him for the purpose of ascertaining whether the provisions of these regulations are being complied with.</p> <p>SCHEDULE C: To confirm Guideline Maximum Discharge Concentration Values</p>	
10	S.L. 549.07	Deposit of Wastes and Rubble (Fees) Regulations	<p>Article 15: The applicant for a waste deposit site must be covered by an insurance policy for environmental damages resulting from the deposit of rubble, waste or hazardous waste and by whatever means. The sum covered by the insurance policy must be decided by the Chief Executive for the Water Services Corporation according to the vulnerability of the aquifer where the waste deposit site is located. The sum covered by the insurance policy however may not be less than five hundred and eighty-two thousand and three hundred and forty-three euro and thirty-five cents (€582,343.35)</p> <p>SCHEDULES C and D: Fees due for the deposit of waste in public waste management facilities</p>	
11	S.L. 549.76	Industrial Emissions (Framework) Regulations	<p>Article 11. Operators shall keep all raw data and reports related to these regulations for at least three years, and make these available to the competent authority on request.</p> <p>Article 10(1) The operator shall take the necessary measures to ensure that the permit conditions are complied with.</p> <p>Article 10(2) In the event of a breach of the permit conditions: (a) the operator shall immediately inform the competent authority; (b) the operator shall immediately take the measures necessary to ensure that compliance is restored within the shortest possible time;</p> <p>Details for the determination of the total concentration of dioxins and furans are available</p>	
12	S.L. 549.77	Industrial Emissions (Integrated Pollution Prevention and Control) Regulations	To respect conditions in the IPPC permit	
13	S.L. 549.29	Waste Management (Landfill) Regulations	<p>Regulation (6) The following wastes shall not be accepted in a landfill:</p> <ul style="list-style-type: none"> - liquid waste; - waste which, in the conditions of landfill, is explosive, corrosive, oxidising, highly flammable or flammable as defined in Schedule 2 of the Waste Management (Permit and Control) Regulations; - hospital and other clinical waste arising from medical or veterinary establishments, which are infectious as defined by property H9 of Schedule 2 of the Waste Management (Permit and Control) Regulations; - from 15 July 2003, whole used tyres, excluding tyres used as engineering material; - from 15 July 2006, shredded used tyres; - any other type of waste which does not fulfil the acceptance criteria determined in accordance with Schedule 2; - any other type of waste which the Competent Authority declares as not acceptable in a landfill. 	
14	S.L. 549.59	Ambient Air Quality Regulations	<p>Clause 28: the chimney height shall in no case be less than 3 meters above roof level and 3 m above any habitable floor within a 25 m radius (app. when used over 50 hours annually or 500 hours when fuel conforms to EN590 standard).</p> <p>Schedule 2: Determination of requirements for assessment of concentrations of group A and group B pollutants in ambient air within a zone or agglomeration</p>	
17	S.L. 427.14	Dangerous Substances Regulations	Chemicals storage to have affixed CLP labelling.	
18	S.L. 427.94	Fluorinated Greenhouse Gases (Implementing) Regulations	Article 10: Certified natural person.	

			Article 4: Leak Tests.	
19	S.L. 427.66	Registration, Evaluation, Authorisation and Restriction of Chemicals (Reach) (Implementation) Regulations	Article 5: The penalties applicable for infringement of the provisions Penalties. of Regulation (EC) No.1907/2006 shall be those provided for in Part IV of the Product Safety Act.	
20	S.L. 65.22	Motor Vehicles (Carriage of Dangerous Goods By Road) Regulations	Article 25(1) All drivers of both new and existing vehicles shall hold an ADR Training Certificate for Drivers of Vehicles Carrying Dangerous Goods, as laid down in the Seventh Schedule, issued by the competent authority or by the competent authority of another State Party valid for the mode of transport concerned.	
21	S.L. 549.43	Waste Management (Packaging and Packaging Waste) Regulations		
	LN 277 of 2006	Waste Management (Packaging and Packaging Waste) Regulations, 2006	Schedule 3; Tables (3& 4): To submit annual amount of waste recovered / exported / converted to Energy	
23	S.L. 549.122	Limitation of Emissions of Certain Pollutants into the air from Medium Combustion Plants Regulations	Article 4: These regulations shall apply to combustion plants with a rated thermal input equal to or greater than 1 MW and less than 50 MW , irrespective of the type of fuel they use.	
26	Regulation (EC) No. 1069/2009	Regulation (EC) No 1069/2009 of the European Parliament and of the Council of 21 October 2009 laying down health rules as regards animal by-products and derived products not intended for human consumption and repealing Regulation (EC) No 1774/2002 (Animal)	Article 22: Operators consigning, transporting or receiving animal by-products or derived products shall keep a record of consignments and related commercial documents or health certificates.	
27	S.L. 545.17	Petroleum for the Inland Wholesale Fuel Market, Bottling of LPG and Primary Storage Facilities Regulations	Article 3(2): Not applicable when keeping of a quantity of less than 300 litres of petroleum or 150kgs of LPG otherwise Authorization is required.	
28	S.L. 545.20	Liquefied Petroleum Gas Market Regulations	Article 21: The storage of LPG in underground basements or garages is prohibited.	
29	S.L. 549.81	Industrial Emissions (Waste Incineration) Regulations	Article 7(6): Under no circumstances plant will continue to incinerate waste for a period of more than four hours uninterrupted where emission limit values are exceeded & the cumulative duration of operation in such conditions over one year shall not exceed sixty hours.
