

NOTES

This design is subject to final approval.

Drawings should be read in conjunction with the conceptual design statement report which presents full and detailed specifications.

The support frame sections are prefabricated from 40mm x 40mm x 3mm thick mild steel box section and of welded construction. The connectors are formed from 50mm x 50mm x 3mm thick mild steel box section.

All units and connectors to be galvanised after fabrication.

All cuts and hole made on site to be treated against corrosion.

Support frame base and sub units are based on the standard support frame unit, see drawing 30499/WSM/SW/17
