Eżenzjoni minn Studju ta' l-Impatt Ambjentali Limitat

Exemption of Environmental Planning Statement

SKOND ir-Regolament 3(8) tar-Regolamenti tal-2007 dwar tal-Istima tal-Impatt fuq l-Ambjent (Avviż Legali Nru. 114 ta' 2007) rigward l-applikazzjoni msemmija hawn taht, u minhabba li l-Awtorità ta' Malta dwar l-Ambjent u l-Ippjanar jidhrilha li l-proposta mhux probabbli li għandha impatti sinifikanti fuq l-ambjent. Id-Direttur għall-Harsien tal-Ambjent jaqbel li jeżenta l-applikant milli jhejji Studju dwar l-Impatt Ambjentali limitat (EPS).

IN conformity with Regulation 3 (8) of the Environmental Impact Assessment Regulations (Legal Notice No. 114 of 2007) in respect of the application mentioned hereunder, and in view of the fact that MEPA has determined that the proposal is unlikely to have significant environmental impacts. The Director of Environment Protection agrees to exempt the applicant from preparing an Environmental Planning Statement (EPS).

Id-Deskrizzjoni tal-Proġett (PDS) ipprezentata bħala parti mill-applikazzjoni hadet inkonsiderazzjoni b' mod suffiċjenti l-kwistjonijiet li jolqtu l-ambjent u għaldaqstant it-tnejn ta' studju dwar l-impatt ambjentali limitat mhux se jzid informazzjoni ġdida u li l-Awtorità għandha l-informazzjoni kollha neċessarja sabiex tiddeċiedi din l-applikazzjoni. Mill-informazzjoni li giet ipprezentata d-Deskrizzjoni tal-Proġett (PDS) u l-*screening* li sar skont Skeda IB tal-istess Regolamenti, mhux probabbli li l-proposta għandha impatti sinifikanti fuq l-ambjent.

The Project Description Statement (PDS) presented as part of the application has considered the environmental issues in a sufficient manner such that the preparation of an EPS would not add any new information and MEPA has all the necessary information to determine the application. From the information presented in the PDS and screening according to Schedule IB, the proposal is not likely to have significant environmental effects.

Ġustifikazzjoni dettaljata tinstab hawn taht:

A detailed justification is presented below:

Proposta: Rijabilitazzjoni ta' zona rurali f' park għar-rikreazzjoni u divertiment. Proġett jinkludi t-tindif bl-idejn ta' mogħdijiet eżistenti, pavimentar tal-passaġġ prinċipali u centru żgħir għal osservazzjoni/wiri.

Proposal: Rehabilitation of a run down rural area into a recreational and leisure park. Project includes the cleaning by hand of existing footpaths, paving of main entrance path and a small exhibition/observation centre.

Dawn l-effetti potenzjali fuq l-ambjent, flimkien ma' numru ta' miżuri biex jittaffa l-impatt, ġew identifikati fid-Deskrizzjoni tal-Proġett (PDS) li kien sottomess lill-Awtorità fl 4 ta' Jannar 2013 u fil-ġustifikazzjoni għall-eżenzjoni mill-Istudju dwar l-Impatt Ambjentali li giet sottomessa fis-27 ta' April 2013.

The following potential environmental impacts were identified and mitigation measures proposed in the Project Description Statement (PDS) submitted to MEPA on the PDS dated 4th January 2013 and the justification for proposal from carrying out an Environmental Impact Assessment (EIA) submitted on 27th April, 2013.

Użu tal-art

Il-proposta se tintroduci strutturi mibnija u formalizzazzjoni ta' sit li bħalissa huwa art miftuħa b'taħlita ta' xagħri u maşgar f' zona ta' konservazzjoni rurali. Minkejja li l-iskala tal-interventi proposti hija tali li l-ebda impatt sinifikanti ma huwa mistenni, dawn il-punti huma l-aħjar li jiġu indirizzati direttament permezz tal-mekkanizmu prinċipali tal-kontroll tal-iżvilupp.

Land Use

The proposal will introduce built structures and formalisation of a site that is currently open land with a mix of garrigue and afforested land, located within a Rural Conservation Area. Although the scale of the proposed interventions are such that no significant impacts are likely, such issues are best addressed directly through the mainstream development control mechanism.

Dwal Il-proposta se tintroduci dwal f'zona fejn bhalissa m'hemmx dawl. Dan id-dawl jista' potenzjalment ikollu impatt fuq l-avifawna u l-fawna ta' bil-lejl. Dan l-impatt mhux meqjus sinifikanti peress li jista' jigi evitat direttament billi jitnehhew id-dwal esterni mid-dettalji tal-progett. Jekk din l-introduzzjoni ta' dawl tibqa' tigi kkunsidrata, jigi meqjus xieraq studju specifiku.

Lighting *The proposal will introduce lighting into a currently unlit area. Lighting may have a potential impact on nocturnal avifauna and fauna. The impact is not considered significant given that such impact may be pre-empted at source through elimination of external lighting from the project specifications. Should the introduction of lighting be considered further, then a targeted study may be considered.*

Minkejja dan imsemmi hawn fuq, l-Awtorità ta' Malta dwar l-Ambjent u l-Ippjanar iżzomm id-dritt li titlob lill-applikant li jissottometti informazzjoni oħra kif jista' jkun mehtieg biex tiehu decizjoni dwar l-applikazzjoni.

Notwithstanding the above, the Malta Environmental and Planning Authority reserves the right to request the applicant to submit additional information as may be necessary to determine the application.
