Għal perjodu mis-16 ta’ Ġunju, 2014 sal-15 ta’ Ġunju, 2016

Is-Sur Joseph Antoncich, MA (Social Work), PG Cert Working with Children

Is-Sa Ruth Cassar, BA (Hons.) Social Work, PG Cert Working with Children

Dr Natalie Kenely, Dip. Soc. Wk., BA (Melit), BA (Hons) (Soc. Wk.) (Melit), PhD (Melit)

L-24 ta’ Ġunju, 2014

For the period from 16th June, 2014 to 15th June, 2016

Mr Joseph Antoncich, MA (Social Work), PG Cert Working with Children

Ms Ruth Cassar, BA (Hons.) Social Work, PG Cert Working with Children

Dr Natalie Kenely, Dip. Soc. Wk., BA (Melit), BA (Hons) (Soc. Wk.) (Melit), PhD (Melit)

24th June, 2014

AWTORITÀ TA’ MALTA DWAR L-AMBJENT U L-IPPJANAR

Notifika dwar l-Eżenzjoni minn Studju tal-Impatt Ambjentali

BI qbil mar-Regolament 3(8) tar-Regolamenti tal-2007 dwar l-Istima tal-Impatt fuq l-Ambjent (Avviż Legali 114 tal-2007), u minħabba li l-Awtorità ta’ Malta dwar l-Ambjent u l-Ippjanar jidhrilha li l-proposta mhux probabbli li jkollha impatti sinifikanti fuq l-ambjent, id-Direttur għall-Ħarsien tal-Ambjent jaqbel li l-proposta ma teħtieġx Studju dwar l-Impatt Ambjentali (EPS).

Id-Deskrizzjoni tal-Proġett (PDS) li ġiet ippreżentata bħala parti mill-applikazzjoni kkunsidrat b’mod suffiċjenti l-kwistjonijiet li jolqtu l-ambjent u għaldaqstant it-tħejjija ta’ studju dwar l-impatt ambjentali mhux se żżid informazzjoni ġdida peress li l-Awtorità għandha l-informazzjoni kollha meħtieġa sabiex tiddeċiedi dwar din l-applikazzjoni. Skont l-informazzjoni li ġiet ippreżentata fid-Deskrizzjoni tal-Proġett (PDS) u fil-valutazzjoni li saret skont l-Iskeda IB tal-istess Regolamenti, ma jidhirx li l-proposta se jkollha impatti sinifikanti fuq l-ambjent.

No. 604

MALTA ENVIRONMENT AND PLANNING AUTHORITY

Notification of Exemption of Environmental Planning Statement

IN conformity with Regulation 3(8) of the Environmental Impact Assessment Regulations (Legal Notice 114 of 2007), and in view of the fact that MEPA has determined that the proposal is unlikely to have significant environmental impacts, the Director of Environment Protection agrees that the proposal does not require the preparation of an Environmental Planning Statement (EPS).

The Project Description Statement (PDS) presented as part of the application has considered the environmental issues in a sufficient manner such that the preparation of an EPS would not add any new information and MEPA has all the necessary information to determine the application. From the information presented in the PDS and screening according to Schedule IB of the same Regulations, the proposal is not likely to have significant environmental effects.

Ġustifikazzjoni dettaljata tinstab hawn taħt:
A detailed justification is presented below:

Numru ta' Riferenza: DN 01048/13/EA 00014/14
Post: Il-Park tal-Avjazzoni ta' Ħal Safi, limiti tal-Ajruport Internazzjoni ta' Malta
Proposta: Bini ta' faċilità għal manutenzjoni, tiswija u operat li tikkonsisti fi tliet *hangars, aprons* u trejqa ta' aċċess li tinkludi xogħolijiet anċillari

Reference Number: DN 01048/13/EA 00014/14
Location: Safi Aviation Park, Limits of Malta International Airport, Safi
Proposal: Construction of maintenance, repair and operations facility consisting of three hangars, aprons and access way including ancillary works

Dawn l-effetti potenzjali fuq l-ambjent, flimkien ma' numru ta' miżuri biex jitaffa l-impatt, ġew identifikati fid-Deskrizzjoni tal-Proġett (PDS) li kien sottomess lill-Awtorità fis-27 ta' Mejju 2014 u fil-ġustifikazzjoni għall-eżenzjoni mill-Istudju dwar l-Impatt Ambjentali li ġiet sottomessa fit-2 ta' Ġunju 2014.

The following potential environmental impacts were identified and mitigation measures proposed in the Project Description Statement (PDS) submitted to MEPA on the 27th May 2014 and the justification for proposal from carrying out an Environmental Impact Assessment (EIA) submitted on 2nd June 2014.

Impatti potenzjali *Potential Impacts*	Rimarki fuq miżuri biex jittaffa l-impatt, eċċ. *Remarks on mitigation measures, etc.*
Ħolqien ta' skart	Il-proġett se jiġġenera skart waqt il-kostruzzjoni u l-operat. Skart inert waqt il-kostruzzjoni mhux meqjus bħala sinifikanti minħabba li l-iskavar tas-sit huwa limitat u dan il-materjal se jiġi użat bħala *backfilling* fit-triq tal-aċċess. Skart solidu waqt l-operat mhux meqjus bħala sinifikanti sakemm kull tip ta' skart jiġi ġestit skont il-liġi. Prewkawzjonijiet oħra jistgħu jiġu rrakkomandati waqt il-permess ambjentali, jekk dan ikun hemm bżonnu.
Waste generation	*The project will generate waste during construction and operation. Inert waste during construction is not considered significant given the limited excavation required and the re-utilisation of such material as back-filling in the access route. Solid waste during operations is not considered significant as long as all solid waste is managed in accordance to legislation. Additional precautions may be recommended via the environmental permit mechanism, should this be required.*
Impatt fuq il-kwalità tal-arja	Waqt il-kostruzzjoni, l-emissjoni mhux meqjusa bħala sinifikanti meta wieħed iqis in-natura u l-iskala tal-proġett u l-kuntest tas-sit. Trabijiet waqt il-kostruzzjoni huma temporanji u jistgħu jiġu mmitigati dment li jiġu mħarsa r-Regolamenti fuq il-Ġestjoni Ambjentali ta' Sit tal-Kostruzzjoni (Avviż Legali 295 tal-2007). Il-proposta mhux mistenniji li tiġġenera ammonti kbar ta' traffiku waqt l-operat. L-applikant indika li l-proġett mhux se jiġġenera tniġġis jew skart perikoluż, madanakollu prewkawzjonijiet oħra jistgħu jiġu rrakkomandati waqt il-permess ambjentali, jekk dan ikun hemm bżonnu.
Impact on air quality	*During construction, emissions are not considered to be significant in relation to the nature and magnitude of the project and the site's context. Dust emissions during construction are temporary and can be sufficiently mitigated through the application of measures identified in the Environmental Management Construction Site Regulations (Legal Notice 295 of 2007).* *The proposal is unlikely to generate considerable amount of traffic during operation. The project proponent outlined that the project will not release pollutants or hazardous wastes, however additional precautions may be recommended via the environmental permit mechanism, should this be required.*

Storbju u vibrazzjonijiet	Il-proġett se jkun sors ta' storbju u vibrazzjonijiet waqt il-fażi ta' kostruzzjoni. Waqt l-operat il-proġett mhux mistenni li jiġġenera storju u vibrazzjonijiet jew dwal, sħana, enerġija jew radjazzjoni elettromagnetika. L-ebda impatti sinjifikanti m'huma mistennija 'l hinn mill-medja ta' l-impatti li bħalissa qed jiġu ġġenerati fl-inħawi meta wieħed iqis in-natura u l-lok tal-proposta.
Noise and vibrations	*The project will be a source of noise and vibration during the construction phase. During operation, the project is not likely to generate noise and vibration or release light, heat, energy or electromagnetic radiation. No significant impacts are envisaged, over and above those already currently being generated in the area given the nature and location of the proposal.*
Impatti fuq il-wirt kulturali	F'sit tal-proġett, hemm *Nissen hut* militari u struttura adjaċenti, madanakollu l-impatt mhux meqjus bħala sinifikanti sakemm dawn l-istrutturi jiġu miżmuma, restawrati u użati mill-ġdid. Xi fdalijiet arkeoloġiċi (oqbra) kienu nstabu fil-Park tal-Avjazzjoni ta' Ħal Safi u madwar is-sit. Minħabba l-istorja tas-sit, il-kuntest u l-iskoperta riċenti ta' fdalijiet arkeoloġiċi, l-impatti mhux ċari u għalhekk qed tiġi rrakkomandata konsultazzjoni mas-Sovrintendenza tal-Patrimonju Kulturali.
Impact on cultural heritage	*Within the project site, there is a military (Nissen) hut and adjacent structure, however the impact is not considered to be significant as long as the structures are retained, restored and reused. Some archaeological features (tombs) were discovered within the Safi Aviation Park and around the site. Given the site's history, context and recent archaeological findings, such impacts are unclear and therefore consultation with the Superintendence for Cultural Heritage is being recommended.*

Minkejja dan imsemmi hawn fuq, l-Awtorità ta' Malta dwar l-Ambjent u l-Ippjanar iżżomm id-dritt li titlob lill-applikant li jissottometti informazzjoni oħra kif jista' jkun meħtieġ.

L-24 ta' Ġunju, 2014

Notwithstanding the above, the Malta Environmental and Planning Authority reserves the right to request the applicant to submit additional information as may be necessary.

24th June, 2014
