

Nru. 703**SEGRETARJU EŻEKUTTIV
TAL-KUNSILL LOKALI**

NGHARRFU b'din għall-informazzjoni ta' kulhadd illi l-persuna msemmija hawn taht inहतret Segretarju Eżekuttiv ta' dak il-Kunsill Lokali b'seħh mis-26 ta' Gunju, 2015:

<i>Kunsill Lokali</i>	<i>Segretarju Eżekuttiv</i>
San Ġiljan	Paul Spiteri
Is-17 ta' Lulju, 2015	

No. 703**LOCAL COUNCIL
EXECUTIVE SECRETARY**

IT is hereby notified for general information that the following person has been appointed Executive Secretary of that Local Council with effect from the 26th June, 2015:

<i>Local Council</i>	<i>Executive Secretary</i>
San Ġiljan	Paul Spiteri
17th July, 2015	

Nru. 704**REGOLAMENTI ASSOĊJAZZJONI
KUNSILLI LOKALI
S.L.363.06*****Co-option ta' membru fil-kumitat Eżekuttiv
tal-Assoċjazzjoni Kunsilli Lokali***

NGHARRFU b'din l-informazzjoni ta' kulhadd, skont artikolu 7 tar-Regolamenti dwar l-Assoċjazzjoni Kunsilli Lokali, illi Michael Fenech Adami ġie *co-opted* membru tal-Eżekuttiv u President ta' Regjun Ċentrali fl-1 ta' Lulju, 2015.

Is-17 ta' Lulju, 2015

No. 704**LOCAL COUNCILS' (ASSOCIATION)
REGULATIONS
S.L.363.06*****Co-option of a committee member of the Local
Councils' Association***

IT is hereby notified for general information, in terms of article 7 of the Local Councils (Association) Regulations, that Michael Fenech Adami was co-opted committee member of the Local Councils' Association and President of the Central Region on the 1st July, 2015.

17th July, 2015

Nru. 705**AWTORITÀ TA' MALTA DWAR L-AMBJENT
U L-IPPJANAR*****Notifika dwar l-Eżenzjoni minn Studju
tal-Impatt Ambjentali***

BI qbil mar-Regolament 3(8) tar-Regolamenti tal-2007 dwar l-Istima tal-Impatt fuq l-Ambjent (Avviz Legali 114 tal-2007), u minhabba li l-Awtorità ta' Malta dwar l-Ambjent u l-Ippjanar jidhrilha li l-proposta mhux probabbli li jkollha impatti sinifikanti fuq l-ambjent, id-Direttur għall-Ħarsien tal-Ambjent jaqbel li l-proposta ma teħtieġ Studju dwar l-Impatt Ambjentali (EPS).

Id-Deskrizzjoni tal-Proġett (PDS) li ġiet ippreżentata bħala parti mill-applikazzjoni kkunsidrat b'mod suffiċjenti l-kwistjonijiet li jolqtu l-ambjent u għaldaqstant it-thejjija ta' studju dwar l-impatt ambjentali mhux se żżid informazzjoni ġdida peress li l-Awtorità għandha l-informazzjoni kollha meħtieġa sabiex tiddeciedi dwar din l-applikazzjoni. Skont l-informazzjoni li ġiet ippreżentata fid-Deskrizzjoni tal-Proġett (PDS) u fil-valutazzjoni li saret skont l-Iskeda IB tal-istess Regolamenti, ma jidhrix li l-proposta se jkollha impatti sinifikanti fuq l-ambjent.

No. 705**MALTA ENVIRONMENT AND
PLANNING AUTHORITY*****Notification of Exemption of Environmental
Planning Statement***

IN conformity with Regulation 3(8) of the Environmental Impact Assessment Regulations (Legal Notice 114 of 2007), and in view of the fact that MEPA has determined that the proposal is unlikely to have significant environmental impacts, the Director of Environment Protection agrees that the proposal does not require the preparation of an Environmental Planning Statement (EPS).

The Project Description Statement (PDS) presented as part of the application has considered the environmental issues in a sufficient manner such that the preparation of an EPS would not add any new information and MEPA has all the necessary information to determine the application. From the information presented in the PDS and screening according to Schedule IB of the same Regulations, the proposal is not likely to have significant environmental effects.

Ġustifikazzjoni dettaljata tinstab hawn taht:
A detailed justification is presented below:

Numru ta' Riferenza: TRK160218 (EA0025/15)
 Post: Sit ġewwa Wied Fulija Mizbla, Wied Fulija, Żurrieq
 Proposta: Rijabilitazzjoni u r-restawr tal-mizbla ta' Wied Fulija

Reference Number: TRK160218 (EA0025/15)
Location: Site at, Wied Fulija Landfill, Wied Fulija, Żurrieq
Proposal: Rehabilitation and restoration of Wied Fulija Landfill

Dawn l-effetti potenzjali fuq l-ambjent, flimkien ma' numru ta' miżuri biex jittaffa l-impatt, ġew identifikati fid-Deskrizzjoni tal-Proġett (PDS) li kien sottomess lill-Awtorità fl-24 ta' Frar, 2015, u fil-ġustifikazzjoni għall-eżenzjoni mill-Istudju dwar l-Impatt Ambjentali li ġiet sottomessa fit-18 ta' Mejju, 2015.

The following potential environmental impacts were identified and mitigation measures proposed in the Project Description Statement (PDS) submitted to MEPA on the 24th February, 2015, and the justification for proposal from carrying out an Environmental Impact Assessment (EIA) submitted on the 18th May, 2015.

Impatt Potenzjali <i>Potential Impacts</i>	Rimarki fuq miżuri biex jittaffa l-impatt, eċċ. <i>Remarks on mitigation measures, etc.</i>
Immaniġġjar ta' skart	Il-Mizbla fil-prezent hija l-kawża ta' għadd ta' perikli ambjentali u għas-saħħa assoċjati ma' rimi ta' skart. Ir-Rijabilitazzjoni u r-restawr tal-mizbla f'Wied Fulija tfittex li: (i) tistabbilizza l-iskart; (ii) tnaqqas l-infiltrazzjoni tax-xita, u tal-ilma kkontaminat; u (iii) tnaqqas l-emissjonijiet mill-arja. F'dan ir-rigward, il-proġett ifttx li jtejjeb l-ambjent tal-mizbla u tal-inhawi.
<i>Waste management</i>	<i>The current landfill poses a number of environmental and health hazards associated with unmitigated waste disposal. The proposed engineered cap installation at Wied Fulija seeks to: (i) stabilise ground surfaces, and waste mounds; (ii) reduce rainfall infiltration, and contaminated runoff; and (iii) reduce aerial emissions. In this respect, the project seeks to improve the landfill environs with secondary effects on the surroundings.</i>
Impatt fuq il-kwalità tal-arja	Il-Mizbla hija instabbli u sors ta' trab, gass, u duħħan. Il-proposta għandha l-għan li tnaqqas dawn l-emissjonijiet permezz tar-rijabilitazzjoni u r-restawr tal-mizbla, u b'hekk huwa mistenni impatt pożittiv. Madankollu l-proġett huwa meħtieġ biex jiżgura assigurazzjoni ta' kwalità fil-kostruzzjoni permezz ta' immaniġġjar kontinwu ta' sustanzi perikolużi jew kwalunkwe tniġġis tossiku jew noċiv. Waqt il-kostruzzjoni, trab mis-sit huwa mistenni, u għalhekk għandhom jiġu identifikati miżuri biex inaqsu t-trab fi pjan ta' immaniġġjar tax-xogħlijiet, u billi jiġu osservati r-regolamenti tal-2007 dwar l-Immaniġġjar Ambjentali tas-Siti tal-Kostruzzjoni (L.S. 504.83).
<i>Impact on air quality</i>	<i>The landfill is unstable and releasing dust, fugitive gas, and smoke to the air. The proposal aims at reducing these emissions through the installation of a capping system, thus a positive impact is envisaged from the proposal. Nonetheless the project is required to demonstrate construction quality assurance ensuring the continued management of the release of pollutants or any hazardous, toxic or noxious substances. During construction, fugitive dust from site works may be expected, and effective suppression measures are to be identified in a works management plan, also observing the requirements of Environmental Management Construction Site Regulations, 2007 (S.L. 504.83).</i>
Storbju u vibrazzjonijiet	L-istorbju u l-vibrazzjonijiet mistennija huma assoċjati mat-traffiku ta' kostruzzjoni bejn Għallies u Wied Fulija, dan ser jkun immaniġġat permezz ta' pjan għal traffiku ta' kostruzzjoni. Waqt il-kostruzzjoni, l-istorbju u vibrazzjonijiet mit-tkissir tal-gebel hu mistenni. Għaldaqstant ir-regolamenti tal-2007 dwar l-Immaniġġjar Ambjentali tas-Siti tal-Kostruzzjoni (L.S. 504.83) għandhom jiġu osservati.

<i>Noise and vibrations</i>	<i>Noise and vibration impacts are expected from construction traffic to and from the Għallies and Wied Fulija sites. These are sought to be managed and mitigated through the implementation of a construction traffic management plan. During construction, noise emissions from crushing activity on site is expected, and observing the requirements of Environmental Management Construction Site Regulations, 2007 (S.L. 504.83) should be sufficient to manage noise impacts.</i>
Kwalità tal-Iлма	Il-Kompożizzjoni ġeoloġika ta' taħt il-mizbla eżistenti mhux mitigata huwa nnotat, u huwa mifhum li r-rijabilitazzjoni u r-restawr tal-mizbla jikkontribwixxi għal tnaqqis ta' kontaminazzjoni tal-ilma ta' taħt l-art.
<i>Water Quality</i>	<i>Noting the existing baseline of an unmitigated landfill, and the underlying geological composition, the proposed capping will contribute to a reduction in the groundwater contamination.</i>

Minkejja dan imsemmi hawn fuq, l-Awtorità ta' Malta dwar l-Ambjent u l-Ippjanar iżzomm id-dritt li titlob lill-applikant li jissottometti informazzjoni oħra kif jista' jkun meħtieġ biex tiehu deċiżjoni dwar l-applikazzjoni.

Notwithstanding the above, the Malta Environmental and Planning Authority reserves the right to request the applicant to submit additional information as may be necessary to determine the application.

ISMIJET TA' TOROQ F'MALTA

NAMING OF STREETS IN MALTA

BIS-SAĦĦA tal-poteri mogħtija bl-Artikolu 22 tal-Kodiċi tal-Ligijiet tal-Pulizija (Kap. 10), il-Ministru għat-Trasport u l-Infrastruttura ordna li t-toroq speċifikati fl-ewwel kolonna ta' din l-iskeda għandhom jiġu msemmija mill-ġdid kif speċifikat fit-tieni kolonna tal-istess skeda msemmija.

IN exercise of the powers conferred by Article 22 of the Code of Police Laws (Cap. 10), the Minister for Transport and Infrastructure has directed that the streets specified in the first column of the subjoined schedule be renamed as specified in the second column of the schedule.
