No. 921**MALTA ENVIRONMENT
AND PLANNING AUTHORITY****Exemption of Environmental Planning Statement**

IN conformity with Regulation 3 (8) of the Environmental Impact Assessment Regulations (Legal Notice 114 of 2007) in respect of the application mentioned hereunder, and in view of the fact that MEPA has determined that the proposal is unlikely to have significant environmental impacts the Director of Environment Protection agrees that the proposal does not require the preparation of an Environmental Planning Statement (EPS).

The Project Description Statement (PDS) presented as part of the application has considered the environmental issues in a sufficient manner such that the preparation of an EPS would not add any new information and MEPA has all the necessary information to determine the application. From the information presented in the PDS and screening according to Schedule IB of the same Regulations, the proposal is not likely to have significant environmental effects.

A detailed justification is presented below:

Reference Number: PA 03162/09

Location: Site at Triq l-Inkurunazzjoni, Taz-Żokrija, limits of Mosta.

Proposal: To add sports facilities to compliment the new Mosta Government school at Żokrija Mosta and change in use of existing farmhouse to educational purposes.

tal-Proġett (PDS) sottomess lill-Awtorità fis-6 ta' Lulju, 2010 u fil-ġustifikazzjoni għal eżenzjoni mill-Istudju dwar l-Impatt Ambjentali sottomessa fit-18 ta' Awwissu 2010. Wirt kulturali	Il-proposta tinsab eżatt barra mill- <i>buffer zone</i> tal-Katakombi Ta' Bistra. L-impatti fuq il-Katakombi li jinstabu 180m mis-sit mhumiex meqjusa bħala sinifikanti. Fis-sit jinsabu diversi strutturi rurali u vernakulari li se jiġu integrati bħala parti mill-iżvilupp. Il-hitna tas-sejjeġħ madwar is-sit ser jinżammu.
<i>Cultural heritage</i>	<i>Proposal lies just outside the buffer zone for the Ta' Bistra Catacombs. The proposal is not likely to have a significant effect on these catacombs which lie 180m from the development site. The rural and vernacular features identified within the development site will be integrated into the design of the proposed development. All rubble walls along the perimeter of the site will be retained.</i>
Holqien ta' skart	Studji fuq is-sit indikaw il-kwalità u l-livell ta' skavar meħtieġ biex ma jitqattax materjal bla bżonn. Il-hamrija fuq is-sit ser tintuża jew fuq is-sit innifsu jew tintuża mid-Dipartiment tal-Edukazzjoni għal skejjeġ oħra.
<i>Waste generation</i>	<i>Site investigations have determined the level and type of rock to be excavated to help to reduce cut and fill during excavations, thus limiting the amount of excavated waste. Soil will either be reused on site or reused by the Department of Education for other schools.</i>
Trabijiet u kwalità tal-arja	L-ammont ta' skavar previst huwa minimu. Biex jitnaqqas l-ammont ta' trabijiet fuq ir-residenzi tal-madwar qed jiġi propost biex is-sit jiġi miġmuħ u protett waqt il-fażi ta' kostruzzjoni flimkien ma' miżuri oħra <i>standard</i> .
<i>Dust and air quality</i>	<i>Excavation is minimal therefore dust generation is likely to be minimal. To avoid dust generation on the nearby residential properties, it is being proposed to hoard and screen the site during the construction phase in addition to other standard mitigation measures.</i>
Impatt viżiv	Id-disinn ta' din il-proġett ser jiġi integrat mal-iskola li tmiss mas-sit. Għalkemm mhux mistenni li l-proposta ser ikollha impatt sinifikanti, qed tiġi proposta skema ta' tisbiħ.
<i>Visual impact</i>	<i>The design of the proposal will integrate with the adjacent school and although no significant visual impacts are likely, a landscaping scheme is being proposed.</i>

Minkejja dan imsemmi hawn fuq, l-Awtorità ta' Malta dwar l-Ambjent u l-Ippjanar iżzomm id-dritt li titlob lill-applikant li jissottometti informazzjoni addizzjonali kif jista' jkun meħtieġ biex tiddeciedi l-applikazzjoni.

Notwithstanding the above, the Malta Environmental and Planning Authority reserves the right to request the applicant to submit additional information as may be necessary to determine the application.
