

6. 28 day tenor minimum amount is €250,000, other tenor €50,000. Above this minimum must be in multiples of €1,000.

7. With regard to the tenor, the following days will apply:

1 month = 28 days	9 months = 273 days
3 months = 91 days	12 months = 364 days
6 months = 182 days	

8. The tenderer shall accept any portion of the sum for which he has tendered at the same yield as that for the whole amount he has tendered for.

9. The persons whose tenders are accepted or rejected under standard auctions will be informed on the same day on which the auction is held.

10. Settlement (T+2) of amount allotted is to be made by not later than 10.00 a.m CET on the date on which the relative Bills are dated. Settlement is to be made by bank transfer to the credit of the public account held with Central Bank of Malta as indicated on the Letter of Acceptance.

11. The Accountant General reserves the right of not accepting any tender. For further information please refer to the Malta Treasury Bills General Prospectus at (www.treasury.gov.mt).

21st July, 2017

Nru. 794

No. 794

**AWTORITÀ GĦALL-AMBJENT U R-RIŻORSI
(ERA)**

**ENVIRONMENT AND RESOURCES
AUTHORITY**

**Notifika dwar l-Eżenzjoni minn Dikjarazzjoni dwar
l-Ippjanar Ambjentali**

**Notification of Exemption from Environmental
Planning Statement**

Bi qbil mar-Regolament 3(8) tar-Regolamenti tal-2007 dwar l-Istima tal-Impatt fuq l-Ambjent (L.S. 549.46) fir-rigward tal-applikazzjoni msemmija hawn taht, l-Awtorità għall-Ambjent u r-Riżorsi jidhrilha li l-proposta mhux probabbli li tirriżulta f'impatti ambjentali li jistgħu jiġu indirizzati b'mod effettiv fl-Istudju dwar l-Impatt Ambjentali. Għalhekk, id-Direttur tal-Ambjent u r-Riżorsi jaqbel li l-proposta ma tehtiġx Dikjarazzjoni dwar l-Ippjanar Ambjentali (EPS). Dan huwa mingħajr preġudizzju għall-obbligi ambjentali li huma speċifikati fil-kundizzjonijiet tal-proġett propost.

In conformity with Regulation 3(8) of the Environmental Impact Assessment Regulations, 2007 (S.L. 549.46) with respect to the application mentioned hereunder, the Environment and Resources Authority has determined that the proposal is unlikely to result in environmental impacts that can be effectively addressed in an Environmental Impact Assessment. Therefore, the Director of Environment and Resources agrees that the proposal does not require the preparation of an Environmental Planning Statement (EPS). This is without prejudice to the environmental obligations being specified in the proposed project conditions.

Id-Deskrizzjoni tal-Proġett (PDS) li giet ipprezentata bħala parti mill-applikazzjoni kkunsidrat b'mod suffiċjenti l-kwistjonijiet li jolqtu l-ambjent u għaldaqstant it-tnejn ta' Dikjarazzjoni dwar l-Ippjanar Ambjentali mhux se żżid informazzjoni ġdida peress li l-Awtorità għall-Ambjent u r-Riżorsi għandha l-informazzjoni kollha meħtieġa sabiex tiddeċiedi dwar din l-applikazzjoni, kif ġie konkluz fl-*iscreening* tal-proġett skont l-Iskeda IB tal-istess Regolamenti.

The Project Description Statement (PDS) presented as part of the application has considered the environmental issues in a sufficient manner such that the preparation of an EPS would not add any new information and the Environment and Resources Authority has all the necessary information to determine the application, as concluded in the project screening according to Schedule IB of the same Regulations.

Ġustifikazzjoni dettaljata tinstab hawn taht:

A detailed justification is presented below:

Numru ta' Riferenza: PA 03605/16 (EA 00032/16)
 Post: Sit fi Triq Il-Pitiross, Il-Gudja, Malta

Reference Number: PA 03605/16 (EA 00032/16)
 Location: Site at Triq Il-Pitiross, Gudja, Malta

Proposta: Proposta għal sular addizzjonali fuq dar tal-anzjani approvata mill-PA 02854/09

Proposal: Proposed additional floor to old people's home approved by PA 02854/09

Dawn l-effetti potenzjali fuq l-ambjent, flimkien ma' numru ta' mizuri biex jittaffa l-impatt, ġew identifikati fid-Deskrizzjoni tal-Proġett (PDS). Il-PDS flimkien mal-ġustifikazzjoni għall-eżenzjoni mill-Istudju dwar l-Impatt Ambjentali ġew sottomessi lill-Awtorità għall-Ambjent u r-Riżorsi fl-24 ta' Marzu, 2017 u l-1 ta' Ġunju, 2017, rispettivament.

The following potential environmental impacts were identified and mitigation measures proposed in the Project Description Statement (PDS) and the justification for exemption from carrying out an Environmental Impact Assessment (EIA) were submitted to the Environment and Resources Authority on the 24th March, 2017 and 1st June, 2017, respectively.

Impatti potenzjali
Potential Impact

Rimarki fuq miżura biex jittaffa l-impatt, eċċ.
Remarks on mitigation measures, etc.

Kwalità tal-arja, storbju u vibrazzjonijiet

Il-livelli ta' emissjonijiet fl-arja, storbju u vibrazzjonijiet iġġenerati waqt il-kostruzzjoni mhumiex mistennija li jkunu sinifikanti peress li l-proposta se żżid sular wieħed addizzjonali. Prattiki tajba ta' kostruzzjoni skont ir-Regolamenti dwar l-Immaniġġar Ambjentali tas-Siti tal-Kostruzzjoni, 2007 (L.S. 552.09) se jiġu implimentati sabiex jittaffa kwalunkwe impatt probabbli. Matul l-operat, l-impatti mhux mistennija li jkunu sinifikanti.

Air quality, noise and vibrations

The amount of air emissions, noise and vibrations generated during construction are not expected to be significant given the proposal seeks to add one additional floor. Good construction practices in accordance with the Environmental Management Construction Site Regulations, 2007 (S.L. 552.09) will be implemented to mitigate any likely impacts. During operations, the impacts are not likely to be significant.

Immaniġġar tal-iskart

L-ebda impatt sinifikanti mhuwa mistenni meta tikkunsidra li l-proposta se żżid sular wieħed addizzjonali, u li kwalunkwe impatt probabbli waqt il-kostruzzjoni jista' jiġi mitigat bil-prattiki tajba ta' kostruzzjoni skont ir-Regolamenti dwar l-Immaniġġar Ambjentali tas-Siti tal-Kostruzzjoni, 2007 (L.S. 552.09). Skart municiipali u skart perikoluż se jiġi ġġenerat waqt l-operat, imma dan jista' jiġi mmaniġġat permezz tal-mekkanizmu eżistenti tal-immaniġġar tal-iskart nazzjonali.

Waste management

No significant impacts are envisaged when considering that the proposal seeks to add one additional floor, and that any possible impacts during construction may be sufficiently mitigated through the provisions laid down in the Environmental Management Construction Site Regulations, 2007 (S.L. 552.09). Municipal and hazardous waste will be generated during operation, but this can be absorbed through the existing national waste management mechanisms.

Impatt viżiv

Iż-żieda ta' sular addizzjonali fuq id-dar tal-anzjani eżistenti mhux mistenni li jkollu impatt sinifikanti minħabba l-iskala u s-sit tal-proposta.

Visual amenity

The inclusion of one additional floor on the existing old people's home is not expected to be significant given the scale and location of the proposal.

Minkejja dak li jissemma hawn fuq, l-Awtorità għall-Ambjent u r-Riżorsi żżomm id-dritt li titlob lill-applikant li jissottometti informazzjoni oħra kif jista' jkun meħtieġ biex tinforma l-proċess tad-deċiżjoni.

Notwithstanding the above, the Environment and Resources Authority reserves the right to request the applicant to submit additional information as may be necessary to inform the decision making process.
