No. 357**MALTA ENVIRONMENT
AND PLANNING AUTHORITY****Notification of Exemption of
Environmental Planning Statement**

IN conformity with Regulation 3(8) of the Environmental Impact Assessment Regulations (Legal Notice 114 of 2007), and in view of the fact that MEPA has determined that the proposal is unlikely to have significant environmental impacts, the Director of Environment Protection agrees that the proposal does not require the preparation of an Environmental Planning Statement (EPS).

The Project Description Statement (PDS) presented as part of the application has considered the environmental issues in a sufficient manner such that the preparation of an EPS would not add any new information and MEPA has all the necessary information to determine the application. From the information presented in the PDS and screening according to Schedule IB of the same Regulations, the proposal is not likely to have significant environmental effects.

A detailed justification is presented below:

Reference Number: TRK 156020

Location: Site at Ta' Sant' Agata sive Ta' Sgamardi, Sqaq tad-Debbiet, Sqaq Ta' Sant' Agata, Tad-Debbiet, Siġġiewi, Malta

Proposal: To convert quarry into agricultural field

The following potential environmental impacts were identified and mitigation measures proposed in the Project Description Statement (PDS) submitted to MEPA on the 20th January, 2015 and the justification for proposal from carrying out an Environmental Impact Assessment (EIA) submitted on 2nd March, 2015.

Impatti potenzjali <i>Potential Impacts</i>	Rimarki fuq miżuri biex jittaffa l-impatt, eċċ. <i>Remarks on mitigation measures, etc.</i>
Trabijiet	Se jittiehdu l-miżuri kollha possibli li jinkludu tnaqqis tal-ħażna tal-iskart inert u sprejjar bl-ilma sabiex jitnaqqsu t-trabijiet. Se jithaddmu wkoll miżuri oħra li huma <i>standard</i> fil-permessi għal dan it-tip ta' żvilupp.
<i>Dust</i>	<i>All practical measures including minimisation of stockpiling of inert waste and spraying with water will be taken to reduce dust emissions. Standard permit safeguards will also be adopted.</i>
Storbju u vibrazzjonijiet	Ix-xogħlijiet proposti se jsiru f'barriera u għalhekk mhux mistenni li se jkun hemm storbju u vibrazzjonijiet sinjifikanti. Dawn l-impatti se jkomplu jittaffew permezz ta' miżuri msemminjin fir-Regolamenti dwar l-Immaniġġjar Ambjentali tas-Siti tal-Kostruzzjoni, 2007.
<i>Noise and vibration</i>	<i>The proposed works will be located within a quarry, thus significant noise and vibrations are not envisaged. Noise abatement measures in accordance with the Construction Site Management Regulations, 2007 shall further minimise these impacts.</i>
Tniġġis tal-ilma	Se jkun meħtieġ permess ambjentali sabiex jiġi żgurat li jintuza biss skart inert meta tintradam il-barriera, biex b'hekk ma jkunx hemm riskji ta' tniġġis tal-ilma.
<i>Water contamination</i>	<i>An environmental permit will be required to ensure that only inert waste is used for infilling the quarry, thus avoiding risks of water contamination.</i>

Minkejja dak imsemmi hawn fuq, l-Awtorità ta' Malta dwar l-Ambjent u l-Ippjanar iżżomm id-dritt li titlob lill-applikant li jissottometti informazzjoni oħra kif jista' jkun meħtieġ biex tiddeċiedi l-applikazzjoni.

Notwithstanding the above, the Malta Environmental and Planning Authority reserve the right to request the applicant to submit additional information as may be necessary to determine the application.
