Environment Protection Officer | Environmental Permitting

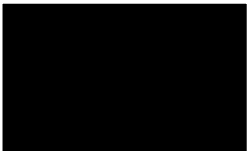

APPLICATION NUMBER: EP 00217/25

LOCATION: AX Hotel Operations

PROPOSAL: Environmental application

Kindly find the conditions on behalf of the EHD to be included in the Environmental Permit as per subject in caption:

- a. Only treated pool backwash water and reverse osmosis (RO) discharge water shall be released into the sea.
- b. The applicant must demonstrate that the discharge of treated pool backwash water and RO discharge water into the sea will not adversely affect the bathing water quality at monitoring points C29 to C31, Salina Bay, St. Paul's Bay.
- c. No waste, fuel, oil, or foul water shall be allowed to reach the bathing water as a result of the operations.
- d. The applicant shall immediately notify the Environmental Health Directorate of any incident that may impact the bathing water quality.
