

Notice of Modification

Environmental Permit

Environment Protection Act (CAP. 549)

Permit number

EP 0096/20

EP 00236/25

Approved Documents:

EP 00236/25/DOC35H

EP 00236/25/DOC46A

The Environment and Resources Authority (hereinafter the Authority; the Competent Authority or ERA) in exercise of its powers under the Environment Protection Act (CAP. 549) and applicable subsidiary legislation referred to in this permit, hereby authorises:

Mr. Anton Schembri on behalf of Schembri Barbros Ltd. (hereinafter "the Permit Holder")

Company Registration Number: C9577

Whose registered office (or principal place of business) is at:

Schembri Barbros Ltd,

Triq tal-Barrani,

Bir id-Deheb,

Għaxaq

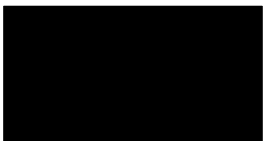

to operate an installation at:

Schembri Barbros Ltd,

Triq tal-Barrani,

Għaxaq

This Notice of Modification is valid until the expiry of the permit EP 0096/20, which is four (4) years from the 'permit granted' date below. An application for renewal is to be submitted at least six (6) months prior to the expiry of EP 0096/20.

Signed	Date
 Perit Vincent Cassar Chairperson	Permit Granted: <u>21/06/2023</u> Notice of Modification Granted: 19.05.2026

Authorised to sign on behalf of the Competent Authority

Introductory note

This Notice of Modification shall be read in conjunction with the permit EP 0096/20 and shall take effect as of the date indicated on the Covering Page.

The Authority is hereby modifying the current environmental permit (EP 0096/20) to permit the acceptance of scarified material and other waste on site, as specified hereunder.

Covering Page

The inclusion of the associated permit numbers to now read as follows:

Permit number
EP 0096/20
EP 00236/25

The amendment of approved documentation to include the associated dust mitigation measures and Environmental Health Directorate conditions as follows:

Approved documents
EP 00236/25/DOC35H
EP 00236/25/DOC46A

Section 1 – General Conditions

1.1 Permitted Operations

Amendment of Table 1.1.1 which outlines the authorised activities on site to now read as follows:

Table 1.1.1

Operation	Description of specified operation	Limits of specified operation
Category 1.11: Depot carrying out temporary storage of construction and demolition waste and preparation for reuse, recycling or recovery of such waste	<i>Acceptance, crushing and stockpiling of inert waste material</i>	From receipt of excavation material to crushing and to dispatch of crushed material.
	Recycling and crushing of inert waste material	
	<i>Acceptance, sieving and stockpiling of soil</i>	From receipt of material to sieving, stockpiling and dispatch of material.
	Recycling and sieving of soil	
	<i>Acceptance, storage and processing of scarified material</i>	From receipt of scarified material to storage and reuse of product at own site

Storage and re-use of scarified material at own site

<i>Import and sale of stone works (tiles, sanitary, paving)</i>	From the import of various stone works to the storage and sale of products locally.
Import of various stone works for the sale to the local market	

Category 2.6: Manufacture or processing of asphalt or other non-metallic mineral products (including batching plants) but excluding temporary plants

<i>Concrete batching plant</i>	From receipt of raw materials to final production and dispatch of finished product.
Production of concrete	

<i>Residue/Effluent recycling from the Ready Mix Plant cleaning</i>	From washing to discharge to silt traps and oil-water separators to collection of water in reservoir to be re-used and eventual disposal of sludge at authorised facilities locally or abroad.
Washing and recycling of water from ready mix plant	

<i>Storage of chemical products</i>	From receipt of chemicals to final production and dispatch of finished products.
Storage of chemicals for concrete production.	

<i>Steel works and welding</i>	From receipt of raw material to final production and dispatch of finished products.
Steel fixing/shaping and welding	

<i>Vehicle and plant engines maintenance and repair</i>	From maintenance and repair to recovery/ disposal at authorised facilities locally or abroad.
Maintenance and repair of HGV vehicles and other related machinery	

<i>Refuelling of own HGVs</i>	From receipt of diesel fuel to storage in underground tanks and refuelling of own vehicles.
Refuelling of own vehicles	

1.3 General Conditions

Condition 1.3.3 shall be amended as follows:

- 1.3.3 The Permit Holder has the sole responsibility to ascertain compliance with legal obligations, permit conditions and the approved document **EP 00236/25/DOC35H** and to undertake operations on and off site in line with good environmental practices at all times.

Inclusion of the following section:

1.6 Conditions to be enforced by other Entities

- 1.6.1 The conditions to be imposed and enforced by the **Environmental Health Directorate** are outlined in approved document **EP 00236/25/DOC46A**.

Section 2 – Site Infrastructure and Equipment

No changes

Section 3 – Operational Procedures

3.3 Crushing of inert waste material

Condition 3.3.1 shall be amended as follows:

- 3.3.1 The recycling of inert waste shall be done through mechanical crushers equipped with a dust suppression system as per approved document **EP 00236/25/DOC35H**. Should further spraying/wetting of the material heaps and the vehicular accesses be required, the Permit Holder is to ensure that this is increased as required.

3.5 Emissions to air

Condition 3.5.3 shall be amended as follows:

- 3.5.3 Emissions to air shall only arise from the emission points specified in Table 3.5.3, as per description in the submitted Environmental Permit Application. The fixed crusher mentioned as PS 1 is the only crusher authorised to operate on site.

Table 3.5.3: Emission points to air	
Emission point references ¹	Source
PS 1	Crusher & Screener
PS 2	Fuel Tank
PS 3	Stockpiles
PS 4	Concrete Batching Plant
PS 5	Cement Silo
PS 6	Cement Silo
PS 7	Cement Silo

Condition 3.5.8 shall be amended as follows:

3.5.8 In the event of windy conditions and/or in the case of failure of the dust mitigation measures specified in approved document **EP 00236/25/DOC35H**, leading to abnormal emissions within and beyond the site boundary, the Permit Holder shall cease all operations until the cause is identified and corrective/remedial action is taken.

Section 4 – Site Management

No changes

Section 5 – Cessation of Operation

No changes

Schedule 1 – Complete List of Permitted Waste on Site

List to be amended as follows:

01 01 02	Wastes from mineral non-metalliferous excavation
01 04 08	Waste gravel and crushed rocks other than those mentioned in 01 04 07
01 04 09	Waste sands and clays
01 04 13	Wastes from stone cutting and sawing other than those mentioned in 01 04 07
17 01 01	Concrete
17 01 02	Bricks
17 01 03	Tiles and ceramics
17 01 06	Mixtures of, or separate fractions of concrete, bricks, tiles and ceramics containing dangerous substances
17 01 07	Mixtures of concrete, bricks, tiles and ceramics other than those mentioned in 17 01 06
17 03 01*	Bituminous mixtures containing coal tar (<i>only limited to scarified material</i>)
17 03 02	Bituminous mixtures other than those mentioned in 17 03 01 (<i>only limited to scarified material</i>)
17 05 04	Soil and stones other than those mentioned in 17 05 03
17 09 04	Mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03
19 12 04	Plastic and rubber

Schedule 2 – Annual Environment Report and Submissions

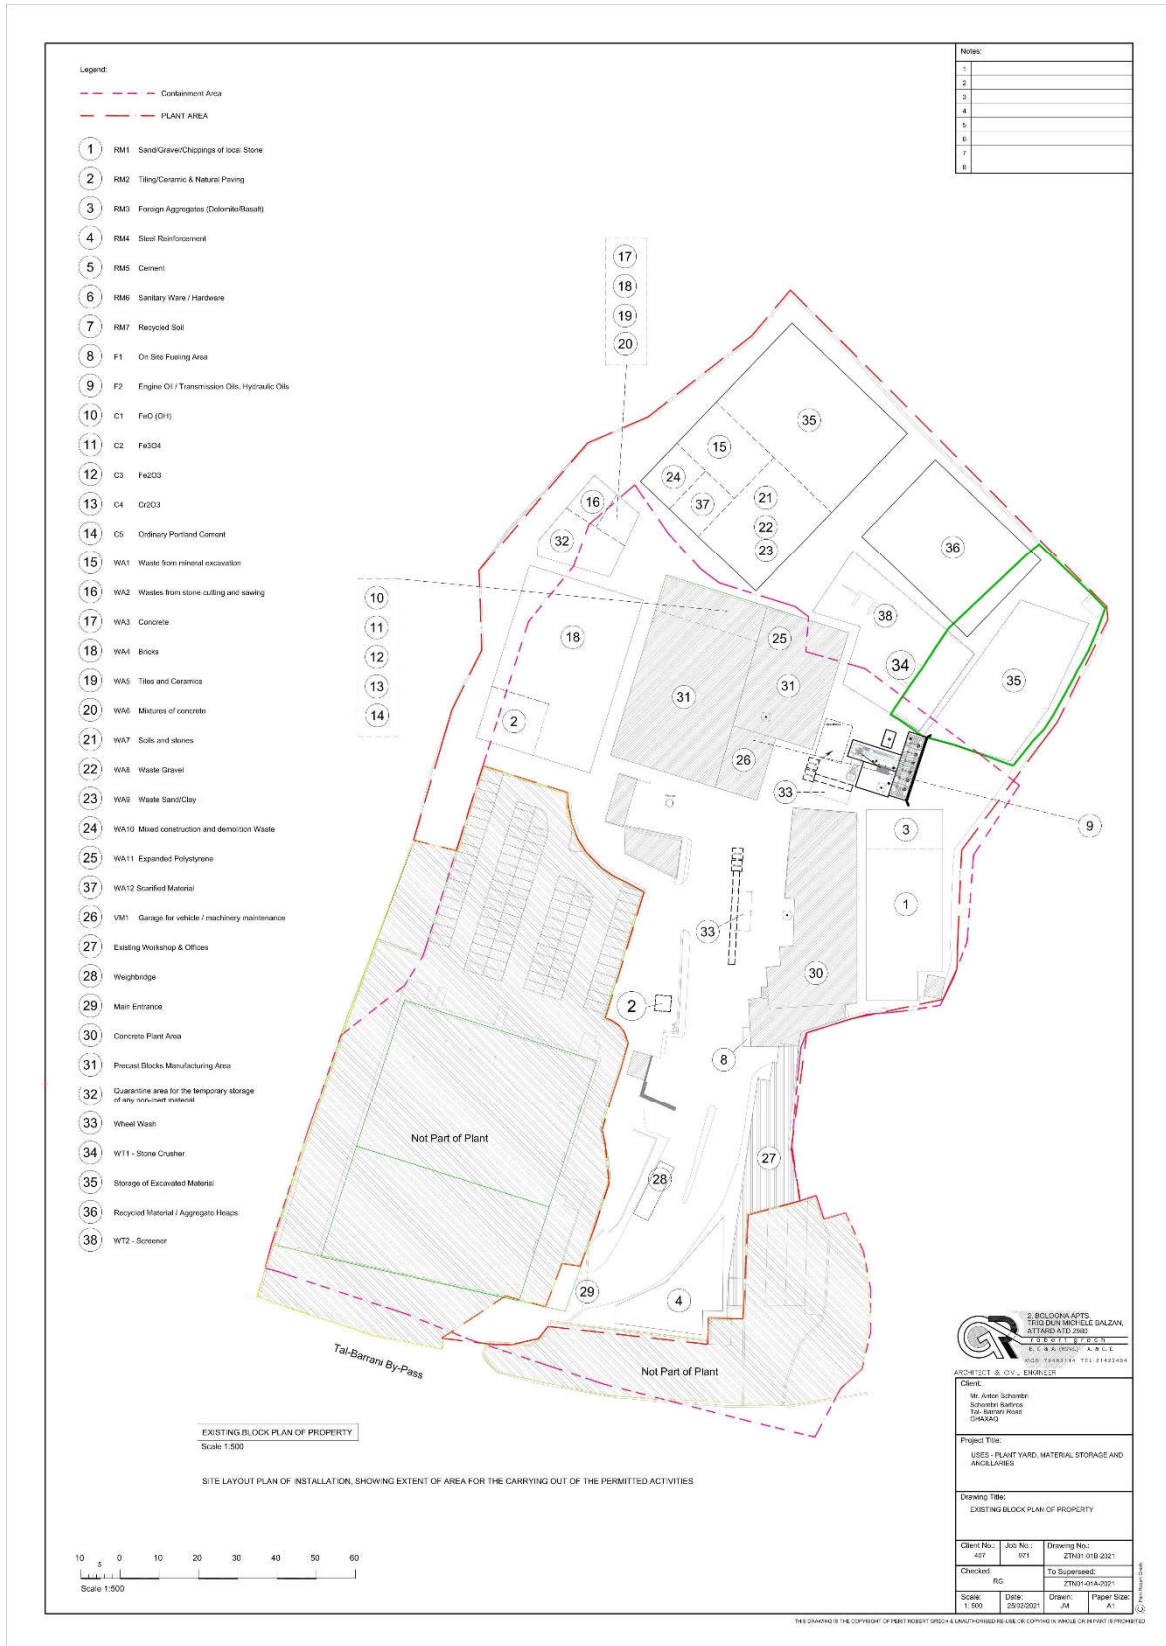

No changes.

Schedule 3 – Site Plan & Site Layout Plan

No changes to Schedule 3A.

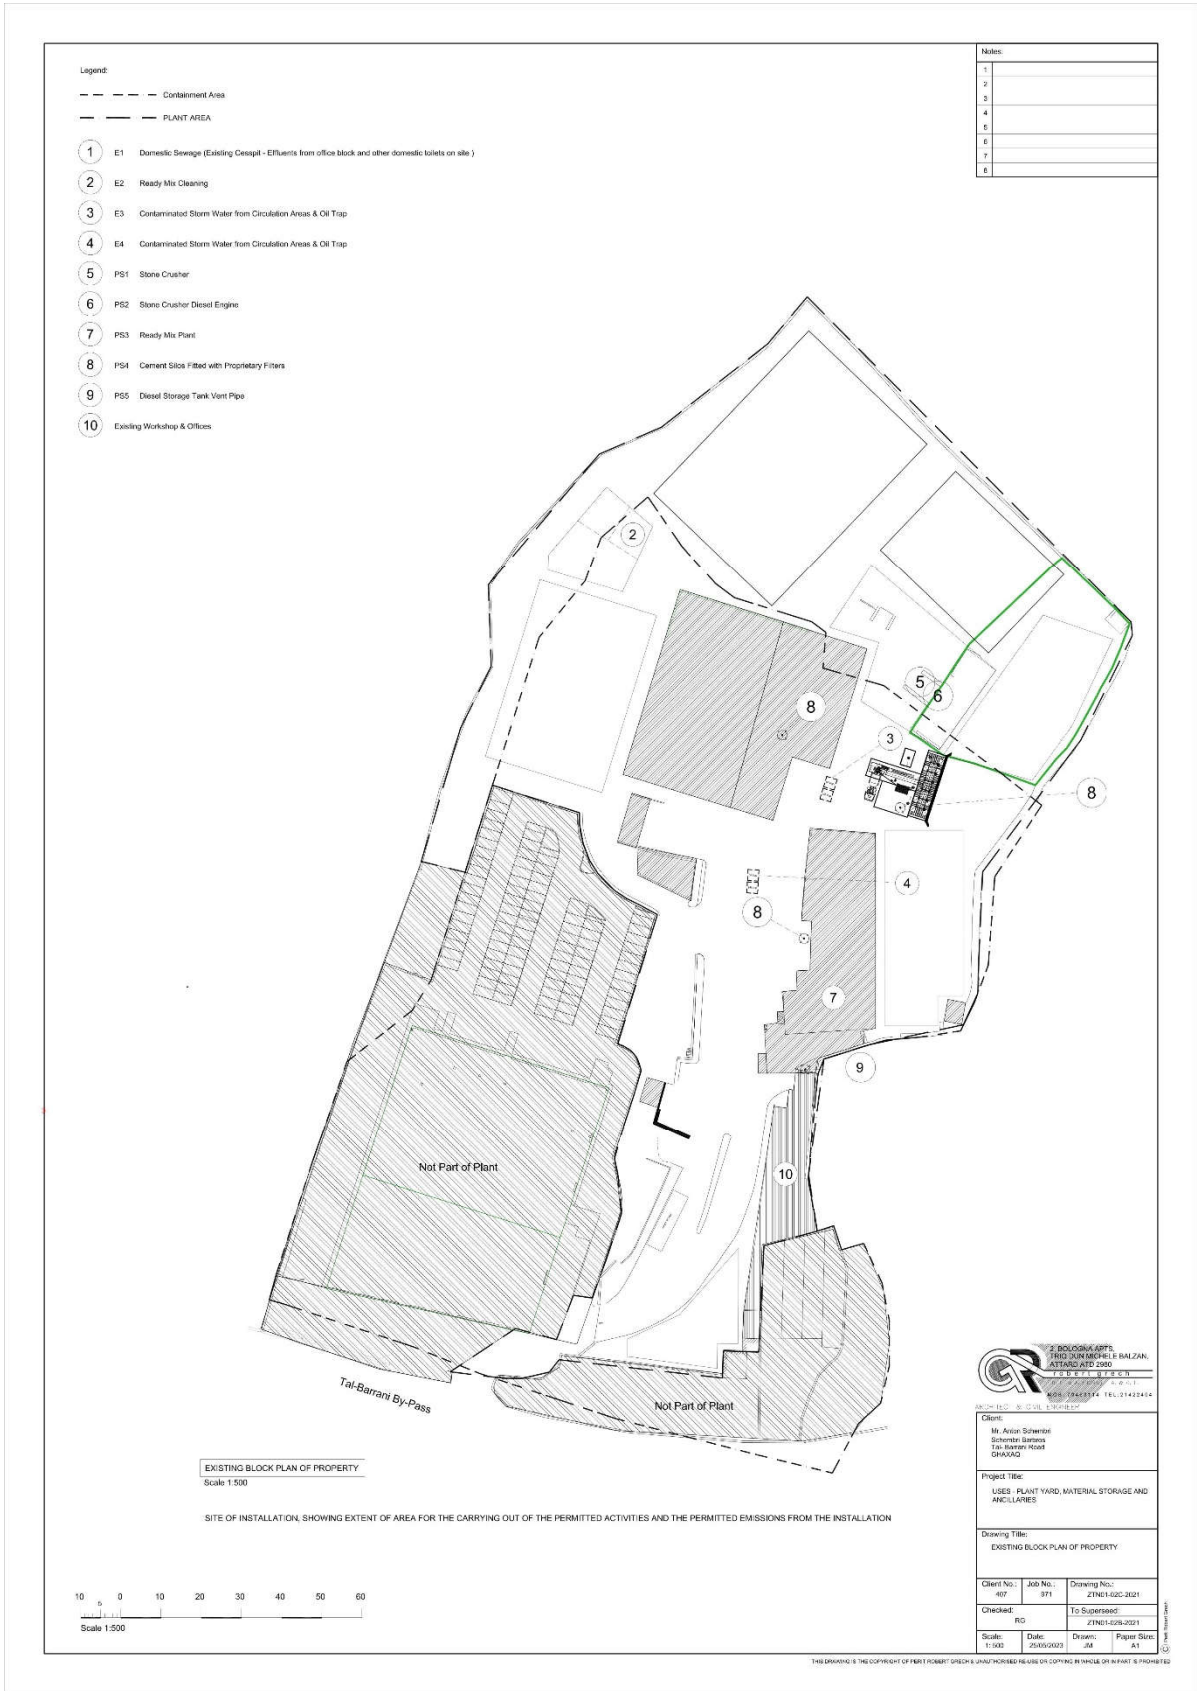

Schedules 3B and 3C shall be replaced by the following site layout plans:

Schedule 3B Site Layout Plan

Schedule 3C

Additional Site Layout Plan covering the same area

Schedule 4 – Complete List of Chemical Products Stored on Site

No changes.

Schedule 5 - Minimum requirements for an Environment Management System (EMS)

No changes.

END OF NOTICE
