Warrant number (if any)	EP 205/24
Accreditation (if any): Indicate which	Licensed Tree Specialist International Society of Arboriculture (ISA) Certified Arborist Professional Member of The Arboricultural Association
Brief description of services	I provide professional arboricultural and forestry consultancy services covering the assessment, management and conservation of trees and woodland. Services include tree surveys and inventories, tree health and condition assessments, tree risk and hazard assessments, tree valuation, development and planning-related surveys, woodland and habitat assessments, and recommendations for pruning, removal, transplantation and long-term management. I also provide advice on tree protection, planting and species selection, compensatory planting, monitoring programmes and sustainable woodland management, supported by detailed technical reports, mapping and practical management recommendations.
