Brief description of services	<p>Support for organisations seeking registration under the EU Eco-Management and Audit Scheme (Regulation (EC) No 1221/2009 as amended).</p> <p>Services include: initial environmental review; gap analysis between an existing ISO 14001:2015 EMS and the additional EMAS requirements (legal compliance, environmental performance evaluation against core indicators, employee involvement, transparent communication); drafting and verification preparation of the EMAS Environmental Statement for public disclosure; legal compliance audit support to EMAS-accredited verifiers; and triennial update support.</p> <p>I have typically worked with clients who already hold ISO 14001:2015 certification in parallel. Relevant experience includes independent legal-compliance audit support provided to international accredited third-party bodies on third-party EMAS audits at STMicroelectronics.</p>
