Spencer Hill
Marsa.

APPLICATION NUMBER: EP 00219/25

LOCATION: Auto Check LTD Mriehel

PROPOSAL: Environmental Permit Application

With reference to the request dated 22nd August 2025 for comments in relation to the application regarding the subject in caption, please be informed that this Directorate would like to provide the following comments:

1. No waste, whether in solid or liquid form, and including foul water, shall be discharged from the site at any time during its operation.
2. Vehicles shall not be kept or stored outside the limits of the scheme for prolonged periods of time, in order to prevent the harbourage and proliferation of pests.
3. Pest control measures are to be carried out on a regular and ongoing basis to mitigate any potential infestation risks associated with the site and its operations.
4. All the relevant Building and Sanitary Laws and Regulations shall be strictly adhered to throughout all phases of development and operation.
5. The necessary odours, noise and vibration mitigation measures are to be implemented to ensure that emissions from the site do not negatively impact surrounding areas or residents.

6. All flooring within the scheme shall be constructed using impermeable materials. In addition, fuels, oils, and lubricants shall be stored in leak-proof containers and, where possible, placed on spill trays to prevent contamination of the surrounding environment.
7. All relevant complaints lodged in relation to the operations or impacts of the site are to be thoroughly investigated without delay, and appropriate remedial action shall be taken immediately. A comprehensive log of all complaints and corrective actions shall be maintained and shall be made readily available to the competent authorities upon request.
8. Any unpredicted impact or nuisance that may arise from this activity, which may have a significant adverse effect on public health, is to be immediately addressed by the applicant. All necessary mitigation measures should be taken in a timely and effective manner to eliminate or reduce such risks.
