Dear [REDACTED]

**Partial Review of the Cemeteries Policy and Design Guidance 2015 for Standalone Crematoria: SEA Screening
Consultation in terms of Regulation 4(6) of S.L. 549.61 (Strategic Environmental Assessment Regulations)**

Reference is made to the SEA screening consultation on the final draft of the Cemeteries Policy and Design Guidance for Standalone Crematoria, which the Environment and Resources Authority (ERA) received by email on 28th February, 2024.

ERA has reviewed the information provided with this SEA screening consultation and considers that, strategically, the revised policy is unlikely to have significant adverse impact on the environment. Adherence to the environmental safeguards and criteria in the policy as well as other environmental considerations would ensure that major environmental issues are suitably mitigated at project level.

Yours sincerely,

Mr. Kevin Mercieca
Chief Executive Officer
Environment and Resources Authority
